Two young women become unlikely best friends during World War II, until one is captured by the Gestapo. Only in wartime could a stalwart lass from Manchester rub shoulders with a Scottish aristocrat. But then a vital mission goes wrong, and one of the friends has to bail out of a faulty plane over France. She is captured by the Gestapo and becomes a prisoner of war. The story begins in "Verity"'s own words, as she writes her account for her captors. Truth or lies? Honour or betrayal? Everything they've ever believed in is put to the test . . . A gripping thriller, Code Name Verity blends a work of fiction into 20th century history with spine-tingling results. A book for young adults like no other. "This is a remarkable book" Daily Mail

## **Dawn Rising**

## **The Runaway King**

Seventeen-year-old Althea is the sole support of her entire family, and she must marry well. But there are few wealthy suitors--or suitors of any kind--in their small Yorkshire town of Lesser Hoo. Then, the young and attractive (and very rich) Lord Boring arrives, and Althea sets her plans in motion. There's only one problem; his friend and business manager Mr. Fredericks keeps getting in the way. And, as it turns out, Fredericks has his own set of plans . . . This witty take on the classic Regency--Patrice Kindl's first novel in a decade--is like literary champagne!

## **The King in Yellow**

"David Elliott explores how Joan of Arc changed the course of history and remains a figure of fascination centuries after her extraordinary life and death in a fiery, evocative novel-in-verse."--Provided by publisher.

## **Mark of the Thief (Mark of the Thief #1)**

If you love the danger and sword-fighting of MERLIN, you'll like this! In a discontent kingdom, civil war is brewing. To unify the divided people, Conner, a nobleman of the court, devises a cunning plan to find an impersonator of the king's long-lost son

and install him as a puppet prince. Four orphans are recruited to compete for the role, including a defiant boy named Sage. Sage knows that Conner's motives are more than questionable, yet his life balances on a sword's point - he must be chosen to play the prince or he will certainly be killed. As Sage's journey continues, layer upon layer of treachery and deceit unfold, until finally a truth is revealed that proves more dangerous than all of the lies put together.

### **The Doctrine of Fascism**

Prince Liam. Prince Frederic. Prince Duncan. Prince Gustav. You've never heard of them, have you? These are the princes who saved Sleeping Beauty, Cinderella, Snow White, and Rapunzel, respectively, and yet, thanks to those lousy bards who wrote the tales, you likely know them only as Prince Charming. But all of this is about to change. Rejected by their princesses and cast out of their castles, the princes stumble upon an evil plot that could endanger each of their kingdoms. Now it's up to them to triumph over their various shortcomings, take on trolls, bandits, dragons, witches, and other assorted terrors, and become the heroes no one ever thought they could be. Christopher Healy's *Hero's Guide to Saving Your Kingdom* is a completely original take on the world of fairy tales, the truth about what happens after "happily ever after." It's a must-have for middle grade readers who enjoy their fantasy adventures mixed with the humor of the *Diary of a Wimpy Kid* books. Witty black-and-white drawings by Todd Harris add to the fun.

Fox Street has everything: a piano player, a fix-it man, the city's best burrito makers, a woman who cuts Mo's hair just right, not to mention a certain boy who wants to teach her how to skateboard. There's even a mean, spooky old lady, if ringing doorbells and running away, or leaving dead mice in mailboxes, is your idea of fun. Summers are Mo's favorite time, because her best friend, Mercedes, comes to stay. Most important, though, Fox Street is where all Mo's memories of her mother live. ### **The Lilac Fairy Book**

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six

stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws

concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

### **The Phantom Tollbooth**

"The Doctrine of Fascism" ("La dottrina del fascismo") is an essay written by Giovanni Gentile, but credit is given to Benito Mussolini. It was first published in the Enciclopedia Italiana of 1932, as the first section of a lengthy entry on "Fascismo" (Fascism). The entire entry on Fascism spans pages 847-884 of the Enciclopedia Italiana, and includes numerous photographs and graphic images. The Mussolini essay leads off the entry: FASCISMO - Movimento politico italiano creato da Benito Mussolini (v.). DOTTRINA Idee Fondamentali. (the first section of the essay) A second section of the essay is titled: "Dottrina Politica e sociale." The Mussolini entry starts on page 847 and ends on 851 with the credit line "Benito Mussolini." All subsequent translations of "The Doctrine of Fascism" are from this work. A key concept of the Mussolini essay was that fascism was a rejection of previous models: "Granted that the 19th century was the century of socialism, liberalism, democracy, this does not mean that the 20th century must also be the century of socialism, liberalism, democracy. Political doctrines pass; nations remain. We are free to believe that this is the century of authority, a century tending to the 'right', a Fascist century. If the 19th century was the century of the individual (liberalism implies individualism) we are free to believe that this is the 'collective' century,

and therefore the century of the State."
