The Higher Realism of Woodrow Wilson, and Other Essays

The importance of Colonel Edward M. House in twentieth-century American foreign policy is enormous: from 1913 to 1919 he served not only as intimate friend and chief political adviser to President Woodrow Wilson but also as national security adviser and senior diplomat. Yet the relationship between House and the president ended in a quarrel at the Paris peace conference of 1919--largely because of Mrs. Wilson's hostility to House--and House has received little sympathetic historical attention since. This extensively researched book reintroduces House and clearly establishes his contributions as one of the greatest American diplomats. A "kingmaker" in Texas politics, House joined Wilson's campaign in 1912 and soon was traveling through Europe as the president's secret agent. He visited Europe repeatedly during World War I and played a major part in drafting Wilson's Fourteen Points and the Covenant of the League of Nations. He tried to stop the war before it began, and to end it by negotiation after it had started. His greatest achievement was to lock both sides into an armistice based on American ideals.

Woodrow Wilson and the Lost World of the Oratorical Statesman

In one of the world's great ironies, the Christian faith contributed decisively to the rise of the modern world, but has been undermined decisively by the modern world it helped to create. The Christian faith has become its own gravedigger. In the 25 years since philosopher and social critic Os Guinness first published *The Gravedigger Files*, much has happened: the fall of the Soviet Union, the rise of the computer age, the reemergence of China and India, the rise of Islamic terrorism, and the worldwide revitalization and politicization of religion. The central mystery of Dr. Guinness's spy novel inspired by his affection for John le Carré thrillers remains unsolved: Can Christians regain the full integrity of faith in Christ while fully and properly engaged in the advanced modern world? This new edition of *The Last Christian on Earth*, which includes previously unpublished top-secret memos, is Dr. Guinness's parable about the future of the Christian church in the West. Written in the grand tradition of le Carré, Fleming, and Clancy, this thriller pays homage to the genre while transcending it--because the real-life ending has yet to be written!

Two Decades of Woodrow Wilson Fellows

Among Seventh-day Adventists the doctrine of the Trinity is often taken for granted. But increasingly it is opposed by a small minority who have retreated to the anti-Trinitarian position of the pioneers. In response the authors, each a specialist in his field, trace the doctrine of the Trinity through Scripture, church history, and the writings of Ellen G. White.; ; The first section surveys the biblical foundations of the doctrine and addresses objections that have been raised. Other sections trace the development of the doctrine in Christian history, in Adventist history, and in the writings of Ellen White. The authors explain why the doctrine was resisted by many of the leading pioneers.; ; The final section asks "So what?" It discusses the theological and practical implications of Trinitarian belief, worship, and practice, showing how it affects what we believe about salvation, atonement, the great controversy, and other significant doctrines. With glossaries, bibliography, and index, this comprehensive primer on the Trinity will shed new light on the central beliefs of Christianity, and show how God still leads His church into all truth. - Introduction; SECTION ONE--The Biblical Evidence for the Full Deity of Christ, the Personality of the Spirit, and the Unity and Oneness of the Godhead; Chapter 1: The Strongest Bible Evidence for the Trinity; Chapter 2: The Full and Eternal Deity of Christ: Part I--The New Testament Epistles, the Old; Testament, and the Gospels; Chapter 3: The Full and Eternal Deity of Christ: Part II--The Gospel of John; Chapter 4: The Personality and Deity of the Spirit and the Triune Oneness of the Godhead; Chapter 5: Trinitarian Evidences in the Book of Revelation; Chapter 6: Biblical Objections to the Trinity; Chapter 7: Logical Objections to the Trinity; SECTION TWO--The History of the Trinity Doctrine From A.D. 100 to A.D. 1500; SECTION THREE--Trinity and Anti-Trinitarianism From the Reformation to the Advent; Movement; SECTION FOUR--The Doctrine of the Trinity and Its Implications for Christian Thought and Practice; Index

In this new work, one of the world's leading historians of US foreign relations, Lloyd E. Ambrosius, addresses enduring questions about American political culture and statecraft by focusing on President Woodrow Wilson and the United States in international relations during and after World War I. Updated to include recent historiography as well as an original introduction and conclusion, *Woodrow Wilson and American Internationalism* features nine different essays closely linked together by the themes of Wilson's understanding of Americanism, his diplomacy to create a new world order in the wake of World War I, and the legacy of his foreign policy. Examining the exclusive as well as universal dimensions of Wilsonianism, Ambrosius assesses not only Wilson's role during his presidency but also his legacy in defining America's place in world history. Speaking to the transnational turn in American history, Ambrosius shows how Wilson's liberal internationalist vision of a new world order would shape US foreign relations for the next century.

The Menace Below

This volume originated when William C. Bullitt began working on a book of studies of the principle personalities surrounding the Treaty of Versailles. In discussing this project with Sigmund Freud, the idea arose of a collaborative work on Woodrow Wilson. Bullitt and Freud realized that they could not write an analysis of Wilson's character unless they deepened their understanding of his nature with private, unpublished information from his intimates. They then set out to collect diaries, letters, records, and memoranda from various associates of Wilson.

The Religion of Woodrow Wilson

"Kraig addresses this oversight by examining the rich neo-classical traditions of Anglo-American oratory and statesmanship, the rhetorical pedagogy of the Gilded Age, and the development of Wilson's own political thought. He concludes with consideration of how Wilson's conception of oratorical leadership influenced his innovative conduct of the presidency."--Jacket.
