Opportunity Lost Marcus D. Pohlmann 2008 In Opportunity Lost, Marcus D. Pohlmann examines the troubling issue of why Memphis city school students are underperforming at alarming rates. His provocative interdisciplinary analysis, combining both history and social science, examines the events before and after desegregation, compares a city school to an affluent suburban school to pinpoint imbalances, and offers critical assessments of various educational reforms. In addition to his analysis of the problems, Pohlmann lays out educational reforms that run the gamut from early intervention and parental involvement to increasing teacher compensation, improving time utilization, and more. Pohlmann's illuminating and original study has wide application for a problem that bedevils inner-city children everywhere and prevents the promise of equality from reaching all of our nation's citizens. -- Book cover.

The Colored Car Jean Alicia Elster 2013-09-13 In The Colored Car, Jean Alicia Elster, author of the award-winning Who's Jim Hines?, follows another member of the Ford family coming of age in Depression-era Detroit. In the hot summer of 1937, twelve-year-old Patsy takes care of her three younger sisters and helps her mother put up fresh fruits and vegetables in the family's summer kitchen, adjacent to the wood yard that her father, Douglas Ford, owns. Times are tough, and Patsy's mother, May Ford, helps neighborhood families by sharing the food that she preserves. But May's decision to take a break from canning to take her daughters for a visit to their grandmother's home in Clarksville, Tennessee, sets in motion a series of events that prove to be life-changing for Patsy. After boarding the first-class train car at Michigan Central Station in Detroit and riding comfortably to Cincinnati, Patsy is shocked when her family is led from their seats to change cars. In the dirty,

cramped "colored car," Patsy finds that the life she has known in Detroit is very different from life down south, and she can hardly get the experience out of her mind when she returns home-like the soot stain on her finely made dress or the smear on the quilt squares her grandmother taught her to sew. As summer wears on, Patsy must find a way to understand her experience in the colored car and also deal with the more subtle injustices that her family faces in Detroit. By the end of the story, Patsy will never see the world in the same way that she did before. Elster's engaging narrative illustrates the personal impact of segregation and discrimination and reveals powerful glimpses of everyday life in 1930s Detroit. For young readers interested in American history, *The Colored Car* is engrossing and informative reading.

Roles and Relationships Joint AASA-NSBA Committee 1994-01-01 This position statement, coauthored by a joint committee composed of members of the American Association of School Administrators (AASA) and the National School Boards Association (ASBA), outlines a new cooperative relationship for superintendents and school boards. In light of the challenges that today's superintendents and school boards face, it is necessary that both parties examine their roles and responsibilities. This document describes the work of the joint committee, professional standards for the superintendency, and the governance role of school boards. It also highlights some societal changes that have affected public school governance and administration. Three major factors of the board-superintendent relationship include the nature of policy development and administration; the increasing influence of external factors on local district governance; and the discretionary authority granted to boards by their chief administrators. The specific responsibilities for boards and superintendents are outlined. Effective communication is identified as a key to a successful board-administrator relationship. (LMI)

Records of the Moravians Among the Cherokees Richard W. Starbuck 2021-01-12 Volume 10 of Records of the Moravians Among the Cherokees, 1834-1838, concludes the subtitle series March to Removal leading up to the Trail of Tears. The State of Georgia and the United States press forward toward their common goal, Georgia for white citizens only and America east of the Mississippi swept clean of Indians. After years of negotiations, treaties, enactments, and lawsuits, the Treaty of New Echota, signed late December 1835 by a handful of Cherokee head men, seals the fate of the Cherokee Nation east of the Mississippi. The Cherokees are now a homeless people in their ancient homeland. And the Moravian Church's missionaries, through mission diaries, reports, and letters, record the events as they hear, read, and eyewitness them, "heart freezing scenes of injustice, deception, oppression, & force, of which this Nation is the victim," missionary Henry Clauder writes April 1837. As forced removal increases, "forts" are built to hold up to 200 Indians each, even at the Moravians' beloved Springplace mission. Herded into

the forts like cattle, many succumb to camp diseases. As the deadline for departure approaches, John Ross, president of the Cherokee Nation, wins a concession from the Army's Gen. Winfield Scott. Instead of soldiers, Cherokees will conduct the 13 "detachments" of about 1,000 Indians each. And the Moravian missionaries make their own hard decision. With winter coming on, they depart on the 800-mile journey to Arkansas before Br. George Hicks can start his detachment with a number of Moravian mission families.

National Standards & Grade-Level Outcomes for K-12 Physical Education SHAPE America - Society of Health and Physical Educators 2014-03-13 Focused on physical literacy and measurable outcomes, empowering physical educators to help students meet the Common Core standards, and coming from a recently renamed but longstanding organization intent on shaping a standard of excellence in physical education, National Standards & Grade-Level Outcomes for K-12 Physical Education is all that and much more. Created by SHAPE America — Society of Health and Physical Educators (formerly AAHPERD) — this text unveils the new National Standards for K-12 Physical Education. The standards and text have been retooled to support students' holistic development. This is the third iteration of the National Standards for K-12 Physical Education, and this latest version features two prominent changes: •The term physical literacy underpins the standards. It encompasses the three domains of physical education (psychomotor, cognitive, and affective) and considers not only physical competence and knowledge but also attitudes, motivation, and the social and psychological skills needed for participation. • Grade-level outcomes support the national physical education standards. These measurable outcomes are organized by level (elementary, middle, and high school) and by standard. They provide a bridge between the new standards and K-12 physical education curriculum development and make it easy for teachers to assess and track student progress across grades, resulting in physically literate students. In developing the grade-level outcomes, the authors focus on motor skill competency, student engagement and intrinsic motivation, instructional climate, gender differences, lifetime activity approach, and physical activity. All outcomes are written to align with the standards and with the intent of fostering lifelong physical activity. National Standards & Grade-Level Outcomes for K-12 Physical Education presents the standards and outcomes in ways that will help preservice teachers and current practitioners plan curricula, units, lessons, and tasks. The text also • empowers physical educators to help students meet the Common Core standards; • allows teachers to see the new standards and the scope and sequence for outcomes for all grade levels at a glance in a colorful, easy-to-read format; and • provides administrators, parents, and policy makers with a framework for understanding what students should know and be able to do as a result of their physical education instruction. The result is a text that teachers can confidently use in creating and enhancing high-quality programs that prepare students to be physically literate and active their whole lives.

Outside, Inside LeUyen Pham 2021-01-05 From Caldecott honoree LeUyen Pham, *Outside, Inside* is a moving picture book that captures the unforgettable moment during the pandemic when people all over the world came together. It celebrates the essential workers, frontline workers, and communities that worked with each other to protect our loved ones. Something strange happened on an unremarkable day just before the season changed. Everybody who was outside went inside. Outside, it was quieter, wilder, and different. Inside, we laughed, we cried, and we grew. We remembered to protect the ones we love and love the ones who protect us. While the world changed outside, we became stronger on the inside and believed that someday soon spring would come again.
