Total Performers Charles Morris 2015-04-16 The 1960s was arguably the most important decade for drag racing. It had exciting cars, thrilling races, rapidly changing technology, and most important, factory participation. Among the best high-performance cars and engines were those coming from Dearborn, Michigan. Ford Motor Company's "Total Performance Years" saw a breakthrough as Ford's drag racing program helped the younger, performance- and style-conscious consumer begin receiving some recognition on the street, and of course, generate sales in the showroom. Factory participation in drag racing pushed the envelope for high-performance developments. In this new paperback edition, Ford's FE-series engine, Police Interceptors, GT

390, 427 SOHC, 428 Cobra Jet, and Boss 429 are all covered in detail. See the cars and the drivers that made them famous: Dick Brannan's Goldfinger, Bill Lawton's Mystery Mustang, "Dyno Don" Nicholson's Eliminator Comet, Gas Ronda's stretched Mustang, and Al Joniec's Batcar. Follow the progression from the early Starliners to the factory lightweight Galaxies to the Thunderbolts, Shelby Cobras, Mustangs, and more. Accomplished journalist and lifelong Ford aficionado Charles Morris takes you back to the "Total Performance Years" through first-hand accounts as well as with more than 400 rare photographs. A drag racer since 1966, Morris has been a crewmember for a Top Alcohol Funny Car and a Pro/Stock team, and has run cars in Stock, Super Stock, and Nostalgia Super Stock classes. This book is a must-read for all drag racing fans, not just Ford enthusiasts.

Derek Bell Richard Heseltine 2018-07-17 Derek Bell's name became inextricably linked with that of Porsche during his long and hugely successful career as a racing driver. In this new 276-page book, Bell collaborates with renowned motorsport author Richard Heseltine to give the reader a very personal insight into his experiences racing for the legendary German marque. The approach taken by this latest publication from Porter Press International is to look at every race Bell drove for Porsche, in detail and with revealing comments from the book's subject. Light is cast on Bell's most prestigious victories with Porsche - four of his five in the Le Mans 24 Hours, three in the Daytona 24 Hours, two in the World Sportscar Championship - and many more besides. Bell describes the Porsches he raced, from the fearsome 917 to the iconic 956, 962, and 911. And he shares his thoughts on the now-legendary drivers he raced with, including six-time Le Mans winner Jacky Ickx, the famously flamboyant Hans Stuck, and two immense talents who lost their lives to the sport, Jo Siffert and Stefan Bellof. The overall effect is a fascinating trip back in time to a golden era for Porsche and sports car racing as a whole.

Veteran Motor Cars Michael E. Ware 2008-03-04 Veteran cars are those made not later than 1918 and were thus the earliest motor cars to appear on the roads of Britain. The first models basically comprised the frame and bodywork of a horse-drawn carriage fitted with a petrol engine, but during the period up to the First World War they became much more comfortable and efficient vehicles. This book describes how the motor car developed from its unpromising origins in the 1880s and 1890s, when motoring was mainly a hobby for wealthy eccentrics, until it came to be seen as a serious means of transport. About the author Michael Ware is the retired Director of the National Motor Museum at Beaulieu. In 1959 he formed his own photographic business specialising in motor-racing photography. The veteran and Edwardian periods of motoring are his favourites and he

greatly enjoys driving cars of this era. Another title for Shire by this author: Canals and Waterways

The Bugatti Queen Miranda Seymour 2015-04-09 Born in 1900 to a soon-to-be-widowed postmaster's wife in a small French village, Hélène Delangle's background offered no suggestion of the extraordinary life she was to lead. The first step was to leave the country behind and head to the city -- in this case, a Paris in the grip of an intoxicating 1920s blend of creativity and debauchery. She became a dancer, and then a stripper. But the demi-monde of gauze veils and admirers was not enough. A visit to the Actors' Championships, a uniquely French meeting of the theatrical world with the race-track, opened her eyes to the glamorous combination of machines and speed. Quickly establishing herself as a racer of uncommon talent and audacity, the beautiful woman now known as Hellé Nice -- Hellish Nice to her British fans -- then caught the attention of none other than Ettore Bugatti, founder of the marque with which her name will always be associated. And yet, despite the fame and the fortune she amassed in an unprecedented career, she died penniless and alone, an old woman in a crumbling Nice flat surrounded only by memories. THE BUGATTI QUEEN is the story of a great pioneer of motor racing who happened to be a woman. Re-creating her rollercoaster career with great verve and panache, Miranda Seymour brilliantly shows us a life now forgotten -- and makes it

unforgettable.
