A Dolphin Wish Natalie Grant 2016-01-26 Join twins Mia and Maddie and their sidekick little sister, LuLu, as they travel the country finding adventure, mystery, and sometimes mischief along the way. Together with their famous mother, singer Gloria Glimmer, and their slightly wacky nanny Miss Twist, the sisters learn lessons about being good friends, telling the truth, and a whole lot more. In *A Dolphin Wish* a three-night stop in the city of San Diego seems like it might be just the break the girls need—lovely weather and great sights to see. That is until they hear animal handlers at “Watery World” talking about the trouble they’ve been having keeping the animals in their habitats. Mia and her sisters cannot resist a challenge and they talk Miss Twist into another visit to the educational amusement park to search for clues as to what or who is helping the animals escape.

The Hidden Habits of Genius Craig Wright 2020-10-06 “An unusually engaging book on the forces that fuel originality across fields.” --Adam Grant Looking at the 14 key traits of genius, from curiosity to creative maladjustment to obsession, Professor Craig Wright, creator of Yale University's popular “Genius Course,” explores what we can learn from brilliant minds that have changed the world. Einstein. Beethoven. Picasso. Jobs. The word genius evokes these iconic figures, whose cultural contributions have irreversibly shaped society. Yet Beethoven could not multiply. Picasso couldn't pass a 4th grade math test.

And Jobs left high school with a 2.65 GPA. What does this say about our metrics for measuring success and achievement today? Why do we teach children to behave and play by the rules, when the transformative geniuses of Western culture have done just the opposite? And what is genius, really? Professor Craig Wright, creator of Yale University's popular "Genius Course," has devoted more than two decades to exploring these questions and probing the nature of this term, which is deeply embedded in our culture. In *The Hidden Habits of Genius*, he reveals what we can learn from the lives of those we have dubbed "geniuses," past and present. Examining the lives of transformative individuals ranging from Charles Darwin and Marie Curie to Leonardo Da Vinci and Andy Warhol to Toni Morrison and Elon Musk, Wright identifies more than a dozen drivers of genius—characteristics and patterns of behavior common to great minds throughout history. He argues that genius is about more than intellect and work ethic—it is far more complex—and that the famed "eureka" moment is a Hollywood fiction. Brilliant insights that change the world are never sudden, but rather, they are the result of unique modes of thinking and lengthy gestation. Most importantly, the habits of mind that produce great thinking and discovery can be actively learned and cultivated, and Wright shows us how. This book won't make you a genius. But embracing the hidden habits of these transformative individuals will make you more strategic, creative, and successful, and, ultimately, happier.

The Music of Dolphins Karen Hesse 2016-08-30 From the Newbery Award winning author of Out of the Dust. Mila becomes famous around the world when she is rescued from an unpopulated island off the coast of Florida. Years ago, Mila went missing from a boat crash, and she has been raised by dolphins from the age of four. Researchers teach Mila language and music. But she also learns about rules and expectations, about locked doors and broken promises, disappointment and betrayal. The more Mila finds out about what it means to be human, the more she longs for her home in the ocean...

Island of the Blue Dolphins Scott O'Dell 1960 Records the courage and self-reliance of an Indian girl who lived alone for eighteen years on an isolated island off the California coast when her tribe emigrated and she was left behind.
