MBA Coffee Chats Bob Manfreda 2021-07-27 Thousands of people who have come before you have already figured out how to have an amazing and valuable MBA experience. Instead of reinventing the wheel (and making less than the most out of a crucial opportunity), allow us share what the most successful students have already learned. As one small example: contrary to what you might have experienced in university, acing every class in your MBA is evidence of bad time management. What!? To make the most of your time, you should be heavily over-investing in your field of interest - doing extra projects, developing relationships, going above and beyond - while doing the passable minimum elsewhere. We wrote this book to share everything that we wish we were told before starting our MBAs at Kellogg and Stanford. In addition to our own experiences, we've interviewed hundreds of other successful graduates, compiling their most impactful lessons into this book. We get it. You're busy. But this is a quick read. It's 110 pages. You can read it in an hour, and it's likely to add tens of thousands of dollars worth of value to your MBA experience. (If you don't believe us, look at the editorial reviews from our early readers, just down below.) Topics covered include: What are the classes and academics like? How can I remember everything important? What's the best thing you did in school? What does a week look like? Should I get a club leadership role? When should I quit my pre-MBA job? How do I find a pre-MBA internship? How can I figure out what job I want? Should I start a business? And more. These aren't soundbite answers. These are truthful deep-dives from students who have been there, wrestled with the tradeoffs, suffered the consequences, and are sharing their best take with you. This book isn't about getting into an MBA program. You've already done that. This is for Admits and first-years who want to make the most of it. It's a special and unique two-year period in your life and career. You should go into it prepared with a plan. This book will help.

[Graduate Writing Across the Disciplines](#) Marilee Brooks-Gillies 2020-11-02 In Graduate Writing Across the Disciplines, the editors and their colleagues argue that graduate education must include a wide range of writing support designed to identify writers' needs, teach writers through direct instruction, and support writers through programs such as writing centers, writing camps, and writing groups. The chapters in this collection demonstrate that attending to the needs of graduate writers requires multiple approaches and thoughtful attention to the distinctive contexts and resources of individual universities while remaining mindful of research on and across similar programs at other universities.

Strategizing National Health in the 21st Century World Health Organization 2017-05-23 This handbook was designed to provide up-to-date and practical guidance on national health planning and strategizing for health. It establishes a set of best practices to support strategic plans for health and represents the wealth of experience accumulated by WHO on national health policies, strategies, and plans (NHPSPs). WHO has been one of the leading organizations to support countries in the development of NHPSPs. The focus on improving plans has grown in recent years in recognition of the benefits of anchoring a strong national health sector in a written vision based on participation, analysis, and evidence.

[Where You Go Is Not Who You'll Be](#) Frank Bruni 2015-03-17 Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years.

Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In Where You Go is Not Who You'll Be, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that--and this indispensable manifesto says it with eloquence and respect for the real promise of higher education.

Fear Is Fuel Patrick Sweeney II 2020-02-03 Fear, the most powerful force in our life, is the least understood. Every one of us experiences it. Many arrange their lives to avoid it. Yet nearly every one of us needs to find more fear. Most of us know fear as the unwanted force that drives phobias, anxieties, unhappiness, and inhibits self-actualization. Ironically, fear is the underlying phenomenon that heightens awareness and optimizes physical performance, and can drive ambition, courage, and success. Harnessing fear can heighten emotional intelligence and bring success to every aspect of your life. Neuroscience and current research on how the brain processes and uses fear have torn the lid off the possibilities of human performance; yet most people are not reaching their complete potential because of a psychological roadblock Sweeney calls the Fear Frontier. Identifying your Fear Frontier and addressing it, Sweeney illustrates in these pages, is the path to success, happiness and fulfillment in almost all aspects of your life. He also provides the most effective steps toward rewiring your mind for a healthier longer life based on courage. Fear is Fuel is a practical guide that instructs everyday readers, business & military leaders, activists, humanitarians, and educators on a unique path toward translating fear into optimal living. By facing fears, and challenging new ones, readers can harness the power of unique motivations to achieve more, experience more, and enjoy more. The path to a fulfilling life is not to avoid fear but to recognize it, understand it, harness it, and unleash its power.

Meeting the Challenge Patti Rabalate 2002 This book is intended to serve as a freestanding reference for teachers whose classes include students with academic or behavioral difficulties. The recommended best practices were originally developed for students with disabilities but have been found to be effective with all students. Each chapter provides principles, suggestions and specific tools (such as sample check lists, rubrics, forms, word lists, observation guides, planning guides, and lesson plans). Chapters address the following critical areas: (1) evaluating struggling students using classroom-based assessment; (2) observing behavior and positively addressing behavioral challenges; (3) using a collaborative team process; (4) developing educationally relevant student expectations; (5) providing accommodations and modifications; and (6) communicating effectively with parents. A glossary is provided, as is an appendix with blank forms for all of the resources discussed in the text. Twenty-four non-print resources including CD-ROMs, videos, and Web sites are listed. (Contains 42 references.) (DB).

College Admissions Stuart White 2017-11-29 Packed with resources to help parents make sense of the college application process, conduct a college search, and help guide their child's completion of their college application. The author has included a variety of tools to compare one school to another, keep track of important application deadlines, and track possible scholarship aid. Readers from around the world have praised its value to parents who want to make sense of the college gauntlet without hovering and taking control away from their children. One reviewer has written: Stuart White's new book takes a unique focus on the role of the parent of one of the hundreds of thousands of overachieving high schoolers. Whereas most books are written for parents that micro manage and compel their children into the high achiever stereotype, Prof. White's book centers on a rather beautiful love story between him and his daughter as she went through the college admission process. Another reader has written: Thank you for sharing your helpful guide to the college application process. I have read many articles and listened to many podcasts regarding the process, yet still learned more from your book. I appreciated your openness and candidness regarding helicopter parenting. I think it's important to include that advice in this book, as most people reading a book like this will lean toward the helicopter side of parenting. The author's side by side journey with his daughter ended with her admission to Yale University.

The Professor Is In Karen Kelsky 2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of

money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish - Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

Surgical Ethics Laurence B. McCullough 1998-04-02 The first textbook on the subject, this is a practical, clinically comprehensive guide to ethical issues in surgical practice, research, and education written by some of the most prominent figures in the fields of surgery and bioethics. Discussions of informed consent, confidentiality, and advance directives--core concepts integral to every surgeon-patient relationship--open the volume. Seven chapters tackle the ethical issues in surgical practice, covering the full range of surgical patients--from emergency, acute, high-risk, and elective patients, to poor surgical risk and dying patients. The book even considers the special relationship between the surgeon and patients who are family members or friends. Chapters on surgical research and education address innovation, self-regulation in practice and research, and the prevention of unwarranted bias. Two chapters focus on the multidisciplinary nature of surgery, including the relationships between surgery and other medical specialties and the obligations of the surgeon to other members of the surgical team. The economic dimensions of surgery, especially within managed care, are addressed in chapters on the surgeons financial relationships with patients, conflicts of interest, and relationships with payers and institutions. The authors do not engage in abstract discussions of ethical theory; instead, their discussions are always directly relevant to the everyday concerns of practicing surgeons. This well-integrated volume is intended for practicing surgeons, medical educators, surgical residents, bioethicists, and medical students.

Schools are selected based on survey results on career services, grad school matriculation, internship support, student group and government activity, alumni activity and salaries, and noteworthy facilities and programs.

Contemporary Issues Digital Marketing Eldad Sotnick-Yogev 2018-06-30 The theme of this book is digital marketing. We now live in the digital age - indeed, there are more than 3 billion people connected to the internet. For every 100 people on the planet, there are 96 mobile telephone subscriptions. And more and more of our everyday objects -cuddly toys, cars, even kettles - have created an "internet of things." It is no surprise, therefore, that companies are eager to harness this digital world. Marketers, in particular, hope that so-called digital marketing will allow them to gain new customer insights, refine customer segmentation, and communicate to customers more efficiently and effectively. They anticipate that the digital age will offer possibilities for new product innovation, advanced methods for engaging customers and original vehicles for creating brand communities. Despite the pervasiveness of digital technologies, however, digital marketing is seemingly still in its infancy. To begin, what exactly is digital marketing? The term is commonly used, but its meaning - its scope, outline, boundary and limits - is far from concise. This book explores the realities of digital marketing, with contributions from both academics and practitioners who are experts in the field.

Hamlet William Shakespeare 2021-02-09 Hamlet, probably composed between 1599 and 1601, takes place in Denmark and tells how Prince Hamlet carries out his revenge on his uncle Claudius who murdered Hamlet's father, the king, and holds the usurped crown as well as nuptials with Gertrude, the mother of Hamlet. The play is vividly traced around insanity (both real and feigned) and the course from deep pain to inordinate anger. It also explores the themes of betrayal, revenge, incest and moral corruption.

The Merit Myth Anthony P. Carnevale 2020-05-26 An eye-opening and timely look at how colleges drive the very inequalities they are meant to remedy, complete with a call—and a vision—for change Colleges fiercely defend America's deeply stratified higher education system, arguing that the most exclusive schools reward the brightest kids who have worked hard to get there. But it doesn't actually work this way. As the recent college-admissions bribery scandal demonstrates, social inequalities and colleges' pursuit of wealth and prestige stack the deck in favor of the children of privilege. For education scholar and critic Anthony P. Carnevale, it's clear that colleges are not the places of aspiration and equal opportunity they claim to be. The Merit Myth calls out our elite colleges for what they are: institutions that pay lip service to social mobility and meritocracy, while offering little of either. Through policies that exacerbate inequality, including generously funding so-called merit-based aid for already-wealthy students rather than expanding opportunity for those who need it most, U.S. universities—the presumed pathway to a better financial future—are woefully complicit in reproducing the racial and class privilege across generations that they pretend to abhor. This timely and incisive book argues for unrigging the game by dramatically reducing the weight of the SAT/ACT; measuring colleges by their outcomes, not their inputs; designing affirmative action plans that take into consideration both race and class; and making 14 the new 12—guaranteeing every American a public K–14 education. The Merit Myth shows the way for higher education to become the beacon of opportunity it was intended to be.

Globalization of Management Education Aacsb International 2011 Rarely, if ever, have business schools experienced change as far-reaching and powerful as during the current wave of globalization. Understanding these changes, and their implications, was the charge given to an AACSB Task Force on Globalization of Management Education. In this comprehensive report, the Task Force explores broad globalization trends in management education that command the attention of any individual or institution striving to navigate in today's environment. Then, by exploring individual business school strategies, it provides valuable insights into how business schools can and should respond. The report aims to encourage and guide business schools to embrace globalization in ways that are mission-appropriate, manageable given available resources, and meaningful to the stakeholders being served. For organizations serving business schools, it will be a catalyst for action that elevates and improves business schools' capabilities. Readers will be left with the conviction that great opportunities exist for business schools to move from keeping pace with the sweeping changes of globalization, to leading the way.

The Case for Classical Christian Education Douglas Wilson 2002-11-12 Newspapers are filled with stories about poorly educated children, ineffective teachers, and cash-strapped school districts. In this greatly expanded treatment of a topic he first dealt with in Rediscovering the Lost Tools of Learning, Douglas Wilson proposes an alternative to government-operated school by advocating a return to classical Christian education with its discipline, hard work, and learning geared to child development stages. As an educator, Wilson is well-equipped to diagnose the cause of America's deteriorating school system and to propose remedies for those committed to their children's best interests in education. He maintains that education is essentially religious because it deals with the basic questions about life that require spiritual answers—reading and writing are simply the tools. Offering a review of classical education and the history of this movement, Wilson also reflects on his own involvement in the process of creating educational institutions that embrace that style of learning. He details elements needed in a useful curriculum, including a list of literary classics. Readers will see that classical education offers the best opportunity for academic achievement, character growth, and spiritual education, and that such quality cannot be duplicated in a religiously-neutral environment.

Developing Lifelong Learners Through Undergraduate Education Philip C. Candy 1994

The White Coat Investor James M. Dahle 2014-01 Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of How a Second Grader Beats Wall Street "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." - William J. Bernstein, MD, Author of The Investor's Manifesto and seven other investing books "This book should be in every career counselor's office and delivered with every medical degree." - Rick Van Ness, Author of Common Sense Investing "The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk." - Joe Jones, DO "Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis." - Dennis Bethel, MD "An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust." - Greg E Wilde, M.D Scroll up, click the buy button, and get started today!
