Race and Real Estate Adrienne R. Brown 2015-10-28 Race and Real Estate brings together new work by architects, sociologists, legal scholars, and literary critics that qualifies and complicates traditional narratives of race, property, and citizenship in the United States. Rather than simply rehearsing the standard account of how blacks were historically excluded from homeownership, the authors of these essays explore how the raced history of property affects understandings of home and citizenship. While the narrative of race and real estate in America has usually been relayed in terms of institutional subjugation, dispossession, and forced segregation, the essays collected in this volume acknowledge the validity of these histories while presenting new perspectives on this story.

The World Is Very Round Maurice Siegel 2014-12-19 Unlike words of a novel where the author may wish to inform the reader of unspoken but intended feelings for the reader, the author adds an aside with additional lines. Such asides in a play will cause the listener's building emotional connection to get diminished. But it is the double purpose with the words spoken that produce both information and emotion, each with their separate purposeful existences struggling with each other at the very same moment. That is so fascinating in plays and makes me want to try my best at this art form.

Tuu Here Mary Barbee 2010-05-03 Moving to Africa in 1979, from rural, small town Mississippi was a leap of faith and a catalyst for great adventure. With graduation from college looming and looking for direction, a Peace Corps flier crosses Mary Duncans path. Mary volunteers to teach Cameroonians how to grow fish for food by building fish ponds in Cameroon. After four months of training, she is assigned to a very isolated post in Yoko. She must adapt to a French speaking, half Muslim world without electricity and plumbing. For the first year, the only other volunteers in the area are a 12 hour bush taxi ride away. Mary gains a unique view of what life is really like in Yoko, where the local tribe, the Bavut, speaks their own patois (language) and are happy to share their opinions on a wide range of topics including homosexuality, polygamy, nuclear bomb

programs and whether or not pygmies are indeed human. The first year Mary is occupied with work and survival: learning how to live without modern conveniences, communicate with the locals, and with very little to eat. During the second year, as the locals begin to know and trust her, she gets to look under the surface and discovers not everything is as innocent as it seems. On this journey to the third world, Mary learns as much about herself as she does of the people around her. Mary's cross-cultural experience attests the commonalities of human beings on higher levels than the boundaries we build between us, and that many challenges that we face are universal: the need for shelter, friendship, and fish. For those thinking to joining the Peace Corps or those looking to travel abroad on a road less traveled, this book can give you honest insight into what you can expect on your own journey.

Laugh Your Way to a Better Marriage Mark Gungor 2008-03-25 Based on Mark Gungor's wildly popular seminar, Laugh Your Way to a Better Marriage® builds on Gungor's success with tens of thousands of couples who credit him with enriching, and even saving, their marriages. By using his unique blend of humor and tell-it-like-it-is honesty, he helps couples get along and have fun doing it. Through exploring a variety of subjects including the myth of a "soul mate," the different ways men and women think, the conflicting levels of libido, and the necessity to forgive, Gungor proves that the key to marital bliss is not romance or destiny -- it's work and skill. Couples need to work hard at maintaining their relationship and to have the skills to pull it off. The longer spouses wait to learn these skills, the greater their chance of wanting to bail, yet Gungor makes it easy for couples to bring their relationship to the next level.
