Lord of the Flies William Golding 2003-12-16 Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

William Golding's Lord of the Flies: A Critical Study Project Alaa Alnajm 2015-09-08 William Golding's Lord of the Flies is one of the most important and outstanding novel has been written after the second World War. The novel is an allegorical novel which talks about the conflict between the impulse toward civilization and impulse toward savagery that rages within each human beings. It also concerns the breakdown of civilization as resulting from nothing more complex than the inherent evil of man: "So the boys try to construct a civilization on the island; but it breaks down in blood and terror because the boys are suffering from the terrible disease of being human." (Tiger, 85). The novel show us how a civilized individual can be savage where he is without law, rules and the lacking of parenting authority, for example, when the boys start their life on the island, they begin to behave violently. Jack is the character who tries always to be the leader of the boys despite of the election of Ralph as a chief of the boys. This shows how human beings can follow the evil in absence of rules and laws

Lost Children Archive Valeria Luiselli 2019-02-12 NEW YORK TIMES 10 BEST BOOKS OF THE YEAR • "An epic road trip [that also] captures the unruly intimacies of marriage and parenthood ... This is a novel that daylight our common humanity, and challenges us to reconcile our differences." —The Washington Post In Valeria Luiselli's fiercely imaginative follow-up to the American Book Award-winning Tell Me How It Ends, an artist couple set out with their two children on a road trip from New York to Arizona in the heat of summer. As the family travels west, the bonds between them begin to fray: a fracture is growing between the parents, one the children can almost feel beneath their feet. Through ephemera such as songs, maps and a Polaroid camera, the children try to make sense of both their family's crisis and the larger one engulfing the news: the stories of thousands of kids trying to cross the southwestern border into the United States but getting detained—or lost in the desert along the way. A breath-taking feat of literary virtuosity, Lost Children Archive is timely, compassionate, subtly hilarious, and formally inventive—a powerful, urgent story about what it is to be human in an inhuman world.

Assumptions about Human Nature Lawrence S. Wrightsman 1992 Our suppositions about human nature colour everything from the way we bargain with a used-car dealer to our expectations about further conflict in the Middle East. Our assumptions about human nature underlie our reactions to specific events. Wrightsman designed this second edition of his book to enhance our understanding of many significant issues about human nature, including the relationship of attitudes to behaviour, the unidimensionality of attitudes and the influence of social movements on beliefs.

Summary & Analysis of Lord of the Flies by William Golding Austin Galloway 2017-09-30 In the midst of a wartime evacuation, a British airplane crashes on or near an isolated island in a remote region of the Pacific Ocean. The only survivors are boys in their middle childhood or preadolescence. Two boys-the fair-haired Ralph and an overweight, bespectacled boy nicknamed "Piggy"-find a conch, which Ralph uses as a horn to convene all the survivors to one area. Ralph is optimistic, believing that grown-ups will come to rescue them but Piggy realizes the need to organize: ("put first things first and act proper"). Because Ralph appears responsible for bringing all the survivors together, he immediately commands some authority over the other boys and is quickly elected their "chief". He does not receive the votes of the members of a boys' choir, led by the red-headed Jack Merridew, although he allows the choir boys to form a separate clique of hunters. Ralph establishes three primary policies: to have fun, to survive, and to constantly maintain a smoke signal that could alert passing ships to their presence on the island and thus rescue them. The boys establish a form of democracy by declaring that whoever holds the conch shall also be able to speak at their formal gatherings and receive the attentive silence of the larger group. Jack organises his choir into a hunting party responsible for discovering a food source. Ralph, Jack, and a quiet, dreamy boy named Simon soon form a loose triumvirate of leaders with Ralph as the ultimate authority. Upon inspection of the island, the three determine that it has fruit and wild pigs for food. The boys also use Piggy's spectacles to create a fire. Though he is Ralph's only real confidant, Piggy is quickly made into an outcast by his fellow "biguns" (older boys) and becomes an unwilling source of laughs for the other children while being hated by Jack. Simon, in addition to supervising the project of constructing shelters, feels an instinctive need to protect the "littluns" (younger boys). The semblance of order quickly deteriorates as the majority of the boys turn idle; they give little aid in building shelters, spend their time having fun and begin to develop paranoid ideas about the island. The central paranoia refers to a supposed monster they call the "beast", which they all slowly begin to believe exists on the island. Ralph insists that no such beast exists, but Jack, who has started a power struggle with Ralph, gains a level of control over the group by boldly promising to kill the creature. At one point, Jack summons all of his hunters to hunt down a wild pig, drawing away those assigned to maintain the signal fire. A ship travels by the island, but without the boys' smoke signal to alert the ship's crew, the vessel continues without stopping. Ralph angrily confronts Jack about his failure to maintain the signal; in frustration Jack assaults Piggy, breaking his glasses. The boys subsequently enjoy their first feast. Angered by the failure of the boys to attract potential rescuers, Ralph considers relinquishing his position as leader, but is convinced not to do so by Piggy, who both understands Ralph's importance and deeply fears what will become of him should Jack take total control.

Ealing Revisited Mark Duguid 2012-10-31 Ealing Revisited provides a major reappraisal of one of British cinema's best-loved institutions, Ealing Studios. During its heyday, Ealing produced a string of classic comedies, including Kind Hearts and Coronets (1949), The Lavender Hill Mob (1951) and The Ladykillers (1955), but there is much more to Ealing than these films, as this volume of new writing on the studio shows. Addressing both known and less familiar aspects of Ealing's story, its films, actors and technicians, the contributors uncover what has gone unexplored, or unspoken, in previous histories of the studio, and consider the impact that Ealing has had on British cultural life from the 1930s to the present. Perspectives on Student Behaviour in Schools Mere Berryman 2007-05-07 The authors of this comprehensive text discuss the root causes of disruptive behaviour, tackle assessment issues and develop effective intervention strategies that will be of practical use to teachers and other educators. Whilst theorising behaviour management from a range of perspectives: psychodynamic, behavioural and socio-cultural, the authors remain firmly focused on practical issues of policy making, assessment and intervention, and address a wide range of related issues, such as: policy in relation to behaviour in schools at local authority, national and international level cultural concerns, race, gender, school discipline and exclusion medical perspectives of topical interest such as ADHD, autism and diet assessment at district, community, classroom and individual level, and how these underpin theory. This book will appeal to anyone for whom behaviour in schools is a key concern, such as student teachers, teacher educators, senior school managers and practising teachers undertaking further study in the field.

Food Policy and the Environmental Credit Crunch Julie Hudson 2013-09-11 The changing economic environment for the consumer that is emerging from the wreckage of the financial credit crunch plays directly into the importance of food spending. This is certainly true from the perspective of food prices in the short run, but also from the perspective of sustainability and reducing the impact of the environmental credit crunch. The economic changes we experience now have a bearing on our ability to manage the environmental credit crunch that looms. Food Policy and the Environmental Credit Crunch: From Soup to Nuts elaborates on the issues addressed in the authors' first book, From Red to Green?, and asks whether the financial credit crunch could ameliorate or exacerbate the emergent environmental credit crunch. The conclusion drawn here is that a significant and positive difference could be made by changing some of the ways in which we procure, prepare, and consume our food. Written by an economist and an investment professional, this book addresses the economic and environmental implications of how we treat food. The book examines each aspect of the 'food chain', from agriculture, to production and processing, retail, preparation, consumption and waste.

National Curriculum: National Disaster? Dr Rhys Griffith 2012-11-12 National Curriculum: National Disaster? looks beyond the classroom and discusses the way in which the infrastructure of school codes of conduct, the physical environment of school sites and the hierarchy of human resources within schools impact on the aims and reality of the National Curriculum. An alternative skills-based educational programme is also outlined which may be more likely to fulfil the expectations that many parents now hold for the education of their children.

The Testing Trap George Hillocks 2002-01 Do statewide assessments really do what they are supposed to do? Through interviews with over three hundred teachers and administrators, Hillocks examines whether state writing tests in Illinois, Kentucky, Oregon, New York, and Texas actually improve students' ability to express their thinking in writing. Ultimately, Hillocks argues that the majority of existing tests actually have a harmful effect on the way students are taught to write. In addition to providing analyses of assessments that do not encourage good writing, *The Testing Trap* contrasts them to those that do. Concluding with practical procedures for examining and evaluating writing assessments, this book is a provocative and essential read for administrators, teachers, policymakers, parents, and all who care about the education of our children.

William Golding Virginia Tiger 1974 Best-known for the cruel moral vision of such novels as "Lord of the Flies, The Inheritors, Pincher Martin, Free Fall, The Spire, Close Quarters," "and Fire Down Below," William Golding expressed a view of humanity that was essentially religious, torn between the brutal realities of good and evil. A Nobel Laureate, he also won the Booker Prize for "Rites of Passage," Distinguished critic Virginia Tiger argues that his writings explore themes of human destiny and vision. Drawing upon her own personal recollections of conversations with Golding and quoting from her correspondence with him, she shows how structure supports content in this extraordinary body of work. The only book to offer a complete commentary on his entire literary oeuvre.

The Wisdom Way of Teaching Martin E. Schmidt 2022-05-01 Immense challenges now face the global community. How can educators train the next generation of students to deal with the vast array of issues awaiting them in every sector of society? Written as a testimony to three decades of experimentation with these challenges in mind, Hong Kong International School humanities teacher Dr. Marty Schmidt draws upon the universal Wisdom tradition to propose pedagogical frameworks that combine what he calls the yang of social conscience with the yin of inner awakening. This yin-yang approach forms the basis of the *The Wisdom Way of Teaching*, which describes in curricular detail how to cultivate the whole person development of students. ENDORSEMENTS: "The Wisdom Way of Teaching is both a manifesto and a manual of what transformative education needs to be in the years to come. I felt inspired to read about the impact of a holistic curriculum that integrates service-learning and spiritual practice. Brick by brilliant brick, Marty Schmidt builds that all-important bridge between the inner world and the outer world. The principles and practices that Marty lays out in generous detail can be applied to classrooms of all kinds and ages. I wish every teacher could read this book!" — Fran Grace, University of Redlands "For secondary teachers and other educators working at the intersection of social justice and spirituality, Marty's book offers practical examples, creative activities, and cross-cultural teaching stories from a lifetime of impassioned teaching. Informed by his deep study of Eastern and Western spiritual traditions, this book comes from the heart of a teacher, infused with contemplative insight, and inspired by a love of the world — the broken world that is and the better world that could be." — Vachel Miller, Appalachian State University
