Bureaucrat and Intellectual in the Ottoman Empire Cornell H. Fleischer 2014-07-14 Mustafa Ali was the foremost historian of the sixteenth-century Ottoman Empire. Most modern scholars of the Ottoman period have focused on economic and institutional issues, but this study uses Ali and his works as the basis for analyzing the nature of intellectual and social life in a formative period of the Ottoman Empire. The Pancatantra Sarma, Visnu 2006-08-31 First recorded 1500 years ago, but taking its origins from a far earlier oral tradition, the Pancatantra is ascribed by legend to the celebrated, half-mythical teacher Visnu Sarma. Asked by a great king to awaken the dulled intelligence of his three idle sons, the aging Sarma is said to have composed the great work as a series of entertaining and edifying fables narrated by a wide range of humans and animals, and together intended to provide the young princes with vital guidance for life. Since first leaving India before AD 570, the Pancatantra has been widely translated and has influenced a cast number of works in India, the Arab world and Europe, including the Arabian

Nights, the Canterbury Tales and the Fables of La Fontaine. Enduring and profound, it is among the earliest and most popular of all books of fables.

The Hurricane Pocket Manual Martin Robson 2018-01-25 The Hawker Hurricane was a British single-seat fighter aircraft that was designed and predominantly built by Hawker Aircraft Ltd for the RAF. Although overshadowed by the Spitfire, during the Battle of Britain the Hurricane accounted for 60% of the RAF's air victories in the battle, and served in all the major theatres of the Second World War. The 1930s design evolved through several versions and adaptations, resulting in a series of aircraft that acted as interceptor-fighters, fighter-bombers (also called 'Hurribombers'), and ground support aircraft. Further versions known as the Sea Hurricane had modifications that enabled operation from ships. Some were converted as catapult-launched convoy escorts, known as 'Hurricats'. More than 14,583 Hurricanes were built by the end of 1944 (including at least 800 converted to Sea Hurricanes and some 1,400 built in Canada. The book collates a variety of pamphlets and manuals on the plane that were produced throughout the war for the benefit of pilots and others associated with the aircraft.

Essential Art Deco Ghislaine Wood 2003 Essential Art Deco captures the essence of the style which swept across the globe in the 1920s and 1930s, altering the skyline of cities from Shanghai to Rio, and adding an exotic vibrant edge to everything from cinema and fashion to ocean lines and automobiles. Beautifully illustrated throughout, the book explores the extraordinary visual language of the style. Skilful juxtaposition of source material and iconic Deco pieces shows how designers borrowed from the exotic cultures of Ancient Egypt, Meso-America, the oriental East and Africa and from the man-made world of skyscrapers and machines, developing in the process a new and highly distinctive iconography. Images inspired by the natural world of plants and animals, sunbursts and fountains, contrast with the geometric forms of avant-garde painting and design, culminating eventually in the symbolic idiom of streamlining. Deeply eclectic and highly decorative, Art Deco was all about fantasy, fun and glamour - themes that are celebrated in this attractive book and which still strike a popular chord today.
