Merely said, the Non Clinical Vascular Infusion Technology Volume I The Science Volume 1 is universally compatible with any devices to read

Cathflo Activase (Alteplase) - Food and Drug Administration

Because of the risk of damage to the vascular wall or collapse of soft-walled catheters, vigorous suction should not be applied during attempts to determine catheter occlusion. Excessive pressure should be avoided when Cathflo Activase is instilled into the catheter. Such force could cause rupture of the catheter or
