Cradle to Cradle William McDonough 2010-03-01 A manifesto for a radically different philosophy and practice of manufacture and environmentalism "Reduce, reuse, recycle" urge environmentalists; in other words, do more with less in order to minimize damage. But as this provocative, visionary book argues, this approach perpetuates a one-way, "cradle to grave" manufacturing model that dates to the Industrial Revolution and casts off as much as 90 percent of the materials it uses as waste, much of it toxic. Why not challenge the notion that human industry must inevitably damage the natural world? In fact, why not take nature itself as our model? A tree produces thousands of blossoms in order to create another tree, yet we do not consider its abundance wasteful but safe, beautiful, and highly effective; hence, "waste equals food" is the first principle the book sets forth. Products might be designed so that, after their useful life, they provide nourishment for something new-either as "biological nutrients" that safely re-enter the environment or as "technical nutrients" that circulate within closed-loop industrial cycles, without being "downcycled" into low-grade uses (as most "recyclables" now are). Elaborating their principles from experience (re)designing everything from carpeting to corporate campuses, William McDonough and Michael Braungart make an exciting and viable case for change.

Yet no government or organisation has the power to regulate these titans and hold them to account. We need big companies to share their power and we, the people of the world, need to reclaim it. In *Competition is Killing Us*, top business and competition lawyer Michelle Meagher establishes a new framework to control capitalism from the inside in order to make it work for the many and not just the few. Meagher has spent years campaigning against these multi-billion and trillion dollar mammoths that dominate the market and prioritise shareholder profits over all else; leading to extreme wealth inequality, inhumane conditions for workers and relentless pressure on the environment. In this revolutionary book, she introduces her wholly-achievable alternative; a fair and comprehensive competition law that limits unfair mergers, enforces accountability and redistributes power through stakeholder

governance.

Hold Still Sally Mann 2015-05-12 NATIONAL BOOK AWARD FINALIST ONE OF THE BEST BOOKS OF THE YEARThe New York Times, Washington Post, The San Francisco Chronicle, Vogue, NPR, Publishers Weekly, BookPage !--

EndFragment-- A revealing and beautifully written memoir and family history from acclaimed photographer Sally Mann. In this groundbreaking book, a unique interplay of narrative and image, Mann's preoccupation with family, race, mortality, and the storied landscape of the American South are revealed as almost genetically predetermined, written into her DNA by the family history that precedes her. Sorting through boxes of family papers and yellowed photographs she finds more

than she bargained for: "deceit and scandal, alcohol, domestic abuse, car crashes, bogeymen, clandestine affairs, dearly loved and disputed family land . . . racial complications, vast sums of money made and lost, the return of the prodigal son, and maybe even bloody murder." In lyrical prose and startlingly revealing photographs, she crafts a totally original form of personal history that has the page-turning drama of a great novel but is firmly rooted in the fertile soil of her own life.

Crying in H Mart Michelle Zauner 2021-04-20 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • NEW YORK TIMES BEST SELLER • From the indie rockstar of Japanese Breakfast fame, one of TIME's Most Influential People of 2022, and author of the viral 2018 New Yorker essay that shares the title of this book, an unflinching, powerful memoir about growing up Korean American, losing her mother, and forging her own identity. In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, Crying in H Mart is a book to cherish, share, and reread.

Zoot Suit Kathy Peiss 2011-05-23 ZOOT SUIT (n.): the ultimate in clothes. The only totally and truly American civilian suit. —Cab Calloway, *The Hepster's Dictionary*, 1944 Before the fashion statements of hippies, punks, or hip-hop, there was the zoot suit, a striking urban look of the World War II era that captivated the imagination. Created by poor African American men and obscure tailors, the "drape shape" was embraced by Mexican American pachucos, working-class youth, entertainers, and swing dancers, yet condemned by the U.S. government as wasteful and unpatriotic in a time of war. The fashion became notorious when it appeared to trigger violence and disorder in Los Angeles in 1943—events forever known as the "zoot suit riot." In its wake, social scientists, psychiatrists, journalists, and politicians all tried to explain the riddle of the zoot suit, transforming it into a multifaceted symbol: to some, a sign of social deviance and psychological disturbance, to others, a gesture of resistance against racial prejudice and discrimination. As controversy

swirled at home, young men in other places—French zazous, South African tsotsi, Trinidadian saga boys, and Russian stiliagi—made the American zoot suit their own. In *Zoot Suit*, historian Kathy Peiss explores this extreme fashion and its mysterious career during World War II and after, as it spread from Harlem across the United States and around the world. She traces the unfolding history of this style and its importance to the youth who adopted it as their uniform, and at the same time considers the way public figures, experts, political activists, and historians have interpreted it. This outré style was a turning point in the way we understand the meaning of clothing as an expression of social conditions and power relations. *Zoot Suit* offers a new perspective on youth culture and the politics of style, tracing the seam between fashion and social action.

**Careers in Cosmetology Institute For Institute For Career Research** 2018-07-04 **COSMETOLOGISTS ARE TRAINED TO MAINTAIN** and care for hair, skin, and nails. Most are hair stylists, estheticians, nail technicians, or makeup artists. This is a very broad industry that offers numerous opportunities to specialize in very specific kinds of work. For example, a trained hair stylist might work only with wigs and hairpieces, or a makeup artist might work in live theater or for a local TV

station. Most specializations are based on personal preference and experience, but some such as microderm abrasion or master coloring, require advanced training. There are more than 600,000 of these professionals working in the US. That number is expected to rise faster than the average for the foreseeable future. The demand for licensed cosmetologists is greatest in hair salons and barber shops, nail salons, and day spas. There are also many jobs being created in resort hotels and department stores, on cruise ships and film and television sets, and backstage at fashion shows and magazine photo shoots. There are even traveling cosmetologists who bring their services to people in their own homes, assisted living facilities, hospitals, or small towns that do not have a salon. If you are creative, good with people, and willing to keep learning more about your craft, this could be the right career choice for you. Cosmetology is a rock-solid profession that thrives even through economic downturns. Women and men always want to feel good about the way they look - almost more than anything else.
