Open Borders Inc. Michelle Malkin 2019-09-10 Follow the money, find the truth. That's Michelle Malkin's journalistic mantra, and in her stunning new book, Open Borders Inc., she puts it to work with a shocking, comprehensive exposé of who's behind our immigration crisis. In the name of compassion—but driven by financial profit—globalist elites, Silicon Valley, and the radical Left are conspiring to undo the rule of law, subvert our homeland security, shut down free speech, and make gobs of money off the backs of illegal aliens, refugees, and low-wage guest workers. Politicians want cheap votes or cheap labor. Church leaders want pew-fillers and collection plate donors. Social justice militants, working with corporate America, want to silence free speech they deem "hateful," while raking in tens of millions of dollars promoting mass, uncontrolled immigration both legal and illegal. Malkin names names—from Pope Francis to George Clooney, from George Soros to the Koch brothers, from Jack Dorsey to Tim Cook and Mark Zuckerberg. Enlightening as it is infuriating, Open Borders Inc. reveals the powerful forces working to erase America.

Today I Made a Difference Joseph W Underwood 2009-04-18 Everyone remembers that teacher who made a difference--the one who went the extra mile to truly affect lives. A collection of stories from some of the country's top educators, this book is a celebration of teachers' work, and motivation for them to continue.

Sold Out Michelle Malkin 2016-06-21 "The syndicated columnist teams up with an expert on the effect of foreign labor on technology workers to challenge popular misconceptions about foreign labor and reveal corrupt practices that are undermining America's high-skill workbase,"--NoveList.

Just Plain Folks Lorraine Johnson-Coleman 2000-06-28 By returning to the cotton fields, tobacco barns, and humble dwellings of her ancestral home in the rural South, this author learned firsthand what is missing from the history books between the pages on slavery and present-day African-American culture. It is the experience of ordinary people who, on second glance, have led truly extraordinary lives. She

developed an appreciation for their words, wit, and wisdom and has made it her life's work to pass along their experiences. In this collection of original short stories, she pays homage to these ordinary folks through lyrical tributes, many of which have aired or will air on National Public Radio. Her own program, Just Plain Folks: Wisdom from the Front Porch, airs weekly on NPR. Like her radio segments, the stories in Just Plain Folks are meant both to entertain and to educate. Each story concludes with an author's note that places it in its proper cultural context.

America: Our Sacred Honor Mary A. Kardes 2015-06-16 America is at a crossroads, and the road we elect to travel will either restore the spirit of America or continue to weaken our country forever. Ordinary American citizens must make fundamental decisions. We have been warned and though the warnings have been muted by media sources and special interest groups, they are growing louder. Voices of genuine concern come from within the United States and from abroad. We Americans must listen to and take seriously what we are being told. We need to educate ourselves about American history; real, unbiased history. We need to know the Constitution, the very cornerstone of our nation and we need to hold our politicians and government leaders accountable. Americans must once again stand united to defend our beloved country and our very way of life.

Born to Fly Steve Sheinkin 2019-09-24 Born to Fly is the gripping story of the fearless women pilots who aimed for the skies—and beyond. Just nine years after American women finally got the right to vote, a group of trailblazers soared to new heights in the 1929 Air Derby, the first women's air race across the U.S. Follow the incredible lives of legend Amelia Earhart, who has captivated generations; Marvel Crosson, who built a plane before she even learned how to fly; Louise Thaden, who shattered jaw-dropping altitude records; and Elinor Smith, who at age seventeen made headlines when she flew under the Brooklyn Bridge. These awe-inspiring stories culminate in a suspenseful, nail-biting race across the

country that brings to life the glory and grit of the dangerous and thrilling early days of flying, expertly told by the master of nonfiction history for young readers, National Book Award finalist Steve Sheinkin. Featuring illustrations by Bijou Karman.

Here's Looking at Euclid Alex Bellos 2010-06-15 Too often math gets a bad rap, characterized as dry and difficult. But, Alex Bellos says, "math can be inspiring and brilliantly creative. Mathematical thought is one of the great achievements of the human race, and arguably the foundation of all human progress. The world of mathematics is a remarkable place." Bellos has traveled all around the globe and has plunged into history to uncover fascinating stories of mathematical achievement, from the breakthroughs of Euclid, the greatest mathematician of all time, to the creations of the Zen master of origami, one of the hottest areas of mathematical work today. Taking us into the wilds of the Amazon, he tells the story of a tribe there who can count only to five and reports on the latest findings about the math instinct—including the revelation that ants can actually count how many steps they've taken. Journeying to the Bay of Bengal, he interviews a Hindu sage about the brilliant mathematical insights of the Buddha, while in Japan he visits the godfather of Sudoku and introduces the brainteasing delights of mathematical games. Exploring the mysteries of randomness, he explains why it is impossible for our iPods to truly randomly select songs. In probing the many intrigues of that most beloved of numbers, pi, he visits with two brothers so obsessed with the elusive number that they built a supercomputer in their Manhattan apartment to study it. Throughout, the journey is enhanced with a wealth of intriguing illustrations, such as of the clever puzzles known as tangrams and the crochet creation of an American math professor who suddenly realized one day that she could knit a representation of higher dimensional space that no one had been able to visualize. Whether writing about how algebra solved Swedish traffic problems, visiting the Mental Calculation World Cup to disclose the secrets of lightning calculation, or exploring the links between pineapples and beautiful teeth, Bellos is a wonderfully engaging guide who never fails to delight

even as he edifies. Here's Looking at Euclid is a rare gem that brings the beauty of math to life.

Free Enterprise Lawrence B. Glickman 2019-08-20 An incisive look at the intellectual and cultural history of free enterprise and its influence on American politics Throughout the twentieth century, "free enterprise" has been a contested keyword in American politics, and the cornerstone of a conservative philosophy that seeks to limit government involvement into economic matters. Lawrence B. Glickman shows how the idea first gained traction in American discourse and was championed by opponents of the New Deal. Those politicians, believing free enterprise to be a fundamental American value, held it up as an antidote to a liberalism that they maintained would lead toward totalitarian statism. Tracing the use of the concept of free enterprise, Glickman shows how it has both constrained and transformed political dialogue. He presents a fascinating look into the complex history, and marketing, of an idea that forms the linchpin of the contemporary opposition to government regulation, taxation, and programs such as Medicare.

In Awe John O'Leary 2020-05-05 NATIONAL BESTSELLER • The #1 bestselling author of On Fire shows us how to recapture and harness our childlike sense of wonder in order to become more engaged, successful, and fulfilled. "Engaging . . . O'Leary encourages us to see the world through a child's eyes."—Mitch Albom, author of Tuesdays with Morrie There once was a time when we joyfully raised our hands to answer questions, connected easily with others, believed that anything was possible, and fearlessly jumped into new experiences. A time when we viewed each day not as something to endure, but as a marvelous gift to explore and savor—when we danced through our lives in awe of the ordinary moments and eager for the promise of tomorrow. Unfortunately, that's far from our experience today. Instead, we feel disconnected and jaded. Social media reminds us that we don't measure up, and the mainstream media barrages us with constant negativity. Many of us find ourselves caught in a life of dogged responsibility and mind-numbing repetition. The daily struggle to earn a living has caused us to lose the sense of wonder with which we once greeted every day. In his new book, bestselling author

John O'Leary invites us to consider that it is possible to once again navigate the world as a child does. Identifying five senses children innately possess and that we've lost touch with as we age, O'Leary shares emotional, humorous, and inspirational stories intertwined with fascinating new research showing how each of us can reclaim our childlike joy, and why doing so will change how we interact with the world. *In Awe* reveals how we can regain that ability to see fresh insights, reach for new solutions, and live our best lives.

In Defense of Internment Michelle Malkin 2013-01-29 Everything you've been taught about the World War II "internment camps" in America is wrong: They were not created primarily because of racism or wartime hysteria They did not target only those of Japanese descent They were not Nazi-style death camps In her latest investigative tour-de-force, New York Times best-selling author Michelle Malkin sets the historical record straight-and debunks radical ethnic alarmists who distort history to undermine common-sense, national security profiling. The need for this myth-shattering book is vital. President Bush's opponents have attacked every homeland defense policy as tantamount to the "racist" and "unjustified" World War II internment. Bush's own transportation secretary, Norm Mineta, continues to milk his childhood experience at a relocation camp as an excuse to ban profiling at airports. Misguided guilt about the past continues to hamper our ability to prevent future terrorist attacks. *In Defense of Internment* shows that the detention of enemy aliens, and the mass evacuation and relocation of ethnic Japanese from the West Coast were not the result of irrational hatred or conspiratorial bigotry. This document-packed book highlights the vast amount of intelligence, including top-secret "MAGIC" messages, which revealed the Japanese espionage threat on the West Coast. Malkin also tells the truth about: who resided in enemy alien internment camps (nearly half were of European ancestry) what the West Coast relocation centers were really like (tens of thousands of ethnic Japanese were allowed to leave; hundreds voluntarily chose to move in) why the \$1.65 billion federal reparations law for Japanese internees and evacuees was a bipartisan disaster how both Japanese American and Arab/Muslim

American leaders have united to undermine America's safety. With trademark fearlessness, Malkin adds desperately needed perspective to the ongoing debate about the balance between civil liberties and national security. *In Defense of Internment* will outrage, enlighten, and radically change the way you view the past-and the present.

The American West Sarah Read 2021-04 We all love to tell stories to kids--and later kids love to explore what they love to read. This tale of the American West is a familiar story to adults, but to children it is new and fresh. It is also an awe inspiring story of bravery, adventure, and a clash of cultures. A great read in fact!

The Least of Us Sam Quinones 2021-11-02 From the New York Times bestselling author of *Dreamland*, a searing follow-up that explores the terrifying next stages of the opioid epidemic and the quiet yet ardent stories of community repair. Sam Quinones traveled from Mexico to main streets across the U.S. to create *Dreamland*, a groundbreaking portrait of the opioid epidemic that awakened the nation. As the nation struggled to put back the pieces, Quinones was among the first to see the dangers that lay ahead: synthetic drugs and a new generation of kingpins whose product could be made in Magic Bullet blenders. In fentanyl, traffickers landed a painkiller a hundred times more powerful than morphine. They laced it into cocaine, meth, and counterfeit pills to cause tens of thousands of deaths-at the same time as Mexican traffickers made methamphetamine cheaper and more potent than ever, creating, Sam argues, swaths of mental illness and a surge in homelessness across the United States. Quinones hit the road to investigate these new threats, discovering how addiction is exacerbated by consumer-product corporations. "In a time when drug traffickers act like corporations and corporations like traffickers," he writes, "our best defense, perhaps our only defense, lies in bolstering community." Amid a landscape of despair, Quinones found hope in those embracing the forgotten and ignored, illuminating the striking truth that we are only as strong as our most vulnerable. Weaving analysis of the drug trade into stories of

humble communities, *The Least of Us* delivers an unexpected and awe-inspiring response to the call that shocked the nation in Sam Quinones's award-winning *Dreamland*.

North America David Starr Jordan 1925

War and Remembrance Thomas H. Conner 2018-10-05 "No soldier could ask for a sweeter resting place than on the field of glory where he fell. The land he died to save vies with the one which gave him birth in paying tribute to his memory, and the kindly hands which so often come to spread flowers upon his earthly coverlet express in their gentle task a personal affection." -- General John J. Pershing To remember and honor the memory of the American soldiers who fought and died in foreign wars during the past hundred years, the American Battle Monuments Commission (ABMC) was established. Since the agency was founded in 1923, its sole purpose has been to commemorate the soldiers' service and the causes for which their lives were given. The twenty-five overseas cemeteries honoring 139,000 combat dead and the memorials honoring the 60,314 fallen soldiers with no known graves are among the most beautiful and meticulously maintained shrines in the world. In the first comprehensive study of the ABMC, Thomas H. Conner traces how the agency came to be created by Congress in the aftermath of World War I, how the cemeteries and monuments the agency built were designed and their locations chosen, and how the commemorative sites have become important "outposts of remembrance" on foreign soil. *War and Remembrance* powerfully demonstrates that these monuments -- living sites that embody the role Americans played in the defense of freedom far from their own shores -- assist in understanding the interconnections of memory and history and serve as an inspiration to later generations.

Stories of Awe and Abundance Jose Hobday 1999-04-19 Sister Jose Hobday is one of America's most popular speakers on prayer and spirituality. Her stories, drawn from her own experience growing up as a Native American Catholic in the American Southwest, eloquently communicate her relationship with and commitment to God, family, and community. In *Stories of Awe and Abundance*, Sister Jose explores

topics ranging from Native American Spirituality to living simply, women in the church, and peace and justice.

Culture of Corruption Michelle Malkin 2010-08-09 Barack Obama's approval ratings are at an all-time low. A recent Gallup poll found that half of the Americans polled said Obama did not deserve a second term. Weary of the corruption that gushes from the White House faster than a Gulf Coast oil spill, voters are ready to put a cap on smear campaigns, pay-to-play schemes, recess appointments, and Chicago politics. In the updated paperback edition of her #1 New York Times bestselling book Culture of Corruption: Obama and His Team of Tax Cheats, Crooks, and Cronies, Michelle Malkin says, "I told you so," citing a new host of examples of Obama's broken promises and brass knuckled Chicago way.

The Immortals Steven T. Collis 2021-05-11 During World War II, on January 29, 1943, the SS Dorchester and a small convoy sailed the perilous route from Newfoundland to the Army Command Base in Greenland. Four chaplains were assigned to the Dorchester with more than 900 men on board.

Alexander Goode, a Jewish rabbi; John Washington, a Catholic priest; George Fox, a Methodist minister; and Clark Poling, a Baptist minister, all offered comfort, reassurances, and prayers with a warning from the captain that a German submarine was hunting their convoy. The Nazi U-boat captain, Karl-Jurg Wachter, had been stalking the Americans for days. When bad weather separated the Dorchester from the other convoy ships, Wachter was finally in a position to strike. Just past midnight, on February 3, just hours from their destination, the Dorchester was torpedoed and sank, throwing its passengers into the frigid waters and creating the worst single loss of an American personnel convoy during WWII. Many of the survivors credit the four chaplains with saving their lives. Those chaplains would become known as "The Immortals" for their heroism in making the ultimate sacrifice. With no thought of themselves, they calmly helped men to safety through the chaos of their badly damaged ship, searched for spare life jackets for those without--eventually giving away their own life jackets and encouraging men in the freezing waters. The celebrated story of the Immortals is now joined for the first time in print by the

largely untold story of another hero of the sinking of the *Dorchester*: Charles Walter Davis Jr. was a young Black petty officer aboard a Coast Guard cutter traveling with the convoy who bravely dived into the glacial water over and over again, even with hypothermia setting in, to try to rescue the men the chaplains had first helped and inspired to never give up. Thoroughly researched and told in an engrossing non-fiction narrative, the book alternates between accounts told from the perspective of the Nazi U-boat captain and his crew, and the hunted--the men of the American convoy. Using his expertise as an attorney specializing in religious freedom and constitutional law, the author, Steven T. Collis, also paints a thought-provoking portrait of religious life in America during wartime and how American views of faith affected the chaplains and the men they served. Page-turning and inspiring, *The Immortals* explores the power of faith and religious conviction and powerfully narrates the lives of five heroic men who believed in something greater than themselves, living lives of service and sacrifice for their country and their fellow man.

Unhinged Michelle Malkin 2013-02-05 *Unhinged: Exposing Liberals Gone Wild* is Michelle Malkin's unrestrained and uncensored exposé of hate-mongering Leftists. With wit, wisdom, and a bullet-proof vest, Malkin ruthlessly and raucously skewers the myths of liberal tolerance, peace, and civility while responding to the incendiary insults and vile slurs directed at her and other conservatives. With infuriating details that are not for the faint of heart, Malkin chronicles the bizarre world of foaming-at-the-mouth Leftists in their natural habitats: the mainstream media, academia, Hollywood, and Washington.

Reclaiming the Black Past Pero G. Dagbovie 2018-11-13 The past and future of Black history In this information-overloaded twenty-first century, it seems impossible to fully discern or explain how we know about the past. But two things are certain. Whether we are conscious of it or not, we all think historically on a routine basis. And our perceptions of history, including African American history, have not necessarily been shaped by professional historians. In this wide-reaching and timely book, Pero Gaglo Dagbovie argues that public knowledge and understanding of black history, including its historical icons,

has been shaped by institutions and individuals outside academic ivory towers. Drawing on a range of compelling examples, Dagbovie explores how, in the twenty-first century, African American history is regarded, depicted, and juggled by diverse and contesting interpreters—from museum curators to filmmakers, entertainers, politicians, journalists, and bloggers. Underscoring the ubiquitous nature of African-American history in contemporary American thought and culture, each chapter unpacks how black history has been represented and remembered primarily during the “Age of Obama,” the so-called era of “post-racial” American society. Reclaiming the Black Past is Dagbovie's contribution to expanding how we understand African American history during the new millennium.

Ida B. the Queen Michelle Duster 2021-01-26 Journalist. Suffragist. Antilynching crusader. In 1862, Ida B. Wells was born enslaved in Holly Springs, Mississippi. In 2020, she won a Pulitzer Prize. Ida B. Wells committed herself to the needs of those who did not have power. In the eyes of the FBI, this made her a “dangerous negro agitator.” In the annals of history, it makes her an icon. Ida B. the Queen tells the awe-inspiring story of an pioneering woman who was often overlooked and underestimated—a woman who refused to exit a train car meant for white passengers; a woman brought to light the horrors of lynching in America; a woman who cofounded the NAACP. Written by Wells's great-granddaughter Michelle Duster, this “warm remembrance of a civil rights icon” (Kirkus Reviews) is a unique visual celebration of Wells's life, and of the Black experience. A century after her death, Wells's genius is being celebrated in popular culture by politicians, through song, public artwork, and landmarks. Like her contemporaries Frederick Douglass and Susan B. Anthony, Wells left an indelible mark on history—one that can still be felt today. As America confronts the unfinished business of systemic racism, Ida B. the Queen pays tribute to a transformational leader and reminds us of the power we all hold to smash the status quo.

How Was That Built? Roma Agrawal 2022-08-16 This striking book explains the feats of engineering behind the world's most impressive architectural marvels. From skyscrapers that reach astonishing heights to bridges that span deep and wide rivers, the world is filled with awe-inspiring structures. But how do they work? Meet the extraordinary people who challenged our beliefs about what's possible, pioneering remarkable inventions that helped build the Brooklyn Bridge in the US, the Pantheon in Italy, the Burj Khalifa in Dubai, the Shard in England and the Sapporo Dome in Japan. Discover the ingenious methods engineers have come up with to enable us to build underground, underwater, on ice, and even in space. With text written by award-winning structural engineer Roma Agrawal and detailed full-color illustrations by Katie Hickey, this book provides unique and illuminating perspectives of the world's most incredible constructions. How Was That Built? is a perfect gift for curious kids who want to learn more about construction, architecture, science, technology, and the way things work. This children's picture book also serves as a fascinating companion to the author's adult nonfiction book Built: The Hidden Stories Behind our Structures, winner of the AAAS/Subaru SB&F Prize for Excellence in Science Books.

Made Possible Saba Salman 2020-05-28 'A bold wake-up call for those who doubt what people with learning disabilities can do' – Sally Phillips 'A call to arms to confront continued discrimination' – Sir Norman Lamb 'A gem of an anthology... this collection will contribute to our growing understanding, acceptance and celebration of "neurodiversity"' – Simon Baron-Cohen Success is a crucial part of being human. But what if society thought success and aspiration didn't apply to you? A human rights

campaigner. A critically acclaimed actor. A civil rights activist. A singer–songwriter. A Paralympian and elite swimmer. A fine artist. An award-winning filmmaker and drag artist. An elected UK mayor. These professionals have achieved astounding and awe-inspiring success. They've won national accolades in competitive fields such as film, theatre, music, fine art, campaigning and politics... and like 1.5 million people in the UK today, they all also happen to have a learning disability. In *Made Possible*, these eight remarkable individuals present their authentic experiences – in their own words – and show us what society misses out on by overlooking them, pitying them, patronising them, simply tolerating them and labelling them in terms of their conditions. Edited by social affairs journalist Saba Salman, this collection of groundbreaking and illuminating essays shatters preconceptions and offers a glimpse of the many types of success that can be achieved by people with a learning disability. Crucially, it reveals how people can make invaluable contributions to society when their potential is acknowledged and supported by those around them.

Your Legacy Schele Williams 2021-09-28 A proud, empowering introduction to African American history that celebrates and honors enslaved ancestors Your story begins in Africa. Your African ancestors defied the odds and survived 400 years of slavery in America and passed down an extraordinary legacy to you. Beginning in Africa before 1619, *Your Legacy* presents an unprecedentedly accessible, empowering, and proud introduction to African American history for children. While your ancestors' freedom was taken from them, their spirit was not; this book celebrates their accomplishments, acknowledges their sacrifices, and defines how they are remembered—and how their stories should be taught.

A Private History of Awe Scott Russell Sanders 2007-05-15 An original and searching memoir from "one of America's finest essayists" (Phillip Lopate) When Scott Russell Sanders was four, his father held him in his arms during a thunderstorm, and he felt awe—"the tingle of a power that surges through bone and rain and everything." He says, "The search for communion with this power has run like a bright thread through all my days." *A Private History of Awe* is an account of this search, told as a series of awe-

inspiring episodes: his early memory of watching a fire with his father; his attraction to the solemn cadences of the Bible despite his frustration with Sunday-school religion; his discovery of books and the body; his mounting opposition to the Vietnam War and all forms of violence; his decision to leave behind the university life of Oxford and Harvard and return to Indiana, where three generations of his family have put down roots. In many ways, this is the story of a generation's passage through the 1960s—from innocence to experience, from euphoria to disillusionment. But Sanders has found a language that captures the transcendence of ordinary lives while never reducing them to formula. In his hands, the pattern of American boyhood that was made classic by writers from Mark Twain to Tobias Wolff is given a powerful new charge.

American Dreams Ricardo Miguez 2009-03-26 The scholars included in this collection sought to indicate more contemporary working definitions for the expression "American Dream", or rather Dreams. The multidisciplinary selections come from many countries and represent scholars from different backgrounds. They reflect the current developments and approaches in the field of US Studies and we hope to help broaden the scope of programs in higher education institutions. The chapters are thematically organized in two sections: "Initial Dialogues" and "Comparative Dialogues." The first one comprises essays that set the foundations for our discussions and intends to familiarize newcomers with the theme. The second section extends the possibilities of working comparatively with the American Dreams and a number of other interdisciplinary fields of interest for US Studies programs.

Who Built That Michelle Malkin 2016-01-12 Conservative journalist Malkin provides an eclectic journey of American capitalism, from the colonial period to the Industrial Age to the present, spotlighting little-known "tinkerpreneurs" who achieved their dreams of doing well by doing good. Learn how Paul Revere became America's first tech titan, how famous patent holders Abraham Lincoln and Mark Twain championed the nation's unique system of intellectual property rights, and more.
