This is their story told through text and the use of contemporary brochures, period literature, factory photos, road test info and over 90 new, unpublished color photos of restored examples to relate the importance of these historic vehicles.

In Jeep: Eight Decades from Willys to Wrangler, automotive writer Patrick R. Foster chronicles Jeep vehicle design and production from the beginning of World War II to present. Between June and October 1944, the SAS brigade operated deep inside Occupied France, harassing Germans reinforcements heading to Normandy, calling up air strikes on installations, and carrying out reconnaissance missions - all made possible with jeeps dropped by
