The first English translation of the rubais of Rumi • Presents 233 of the most evocative of Rumi's 1,700 rubais • Shows that the mystical embrace is the way to directly experience the Divine Rumi is well known for the over 44,000 verses that appear in a 23-volume collection called the Divan-i Kebir. Yet Rumi also composed 1,700 rubais, short aphorisms and observations, whose depth and message belie their brevity. The form of rubais first became well known through the 11th-century collection The Rubaiyat of Omar Khayyam. But unlike Khayyam, who like most poets would sit and carefully craft each word, Rumi would compose and speak his poems through the spontaneous "language of poetry" that poured from his lips as he traveled the streets of Konya, Anatolia (present-day Turkey). Very few of Rumi's rubais have been translated into any of the languages of the contemporary Western world. Now, Nevit O. Ergin, the translator of the complete Divan-i Kebir, and Will Johnson present here 233 of the most evocative of Rumi's 1,700 rubais. Rumi's poetry expresses profound and complex truths in beautiful yet simple language. He reveals that by going deep into the interior of our heart and soul, we can arrive at a place in which we once again merge and connect with the divine. This mystical quest, Rumi contends, is the birthright of us all. Anything less than a complete dissolving into the world of divine union will not provide the satisfaction and peace that we all seek. The simple, yet profound spiritual truths and visions contained in The Rubais of Rumi lead the way to the path of reconnection to the direct energies of God.

Many elementary classroom teachers who are not physical education specialists are nonetheless responsible for providing physical education to their students. This guide provides the classroom teacher with a concise overview of the essential content and pedagogical knowledge necessary to design, implement, and assess physical education programs. Based on current standards established by the National Association of Sport and Physical Education (NASPE), this text is designed to inform classroom teachers about the many opportunities to integrate physical education, which is the deliberate attempt to teach students conceptual knowledge that goes beyond instruction in motor skills, games, sports, and fitness activities. And because the authors of this text are particularly sensitive to the difficulties of teaching physical education when equipment and space are limited, they have included content that can be taught without the need for special facilities, equipment, or certifications. Integrated Physical Education addresses an all-encompassing scope of topics: The Curriculum in Elementary Physical Education; Fitness Education; Fundamental Movement Skills and Concepts; Educational Rhythms and Dance; Educational Gymnastics; Educational Games and Sport; Outdoor and Adventure Education; Effective Teaching; Kinesiology and Effective Teaching; Instructional Methods; Standards-Based Assessment; Instructional Resources and Technology; Physical Education for Individuals with Disabilities; Teaching Multicultural Concepts Through Movement and Physical Activity; First Aid, Safety, and Liability. The book is both the ideal textbook and an indispensable resource for pre-service classroom teachers and others who are studying physical education teaching methods.

This book provides practical know-how on understanding, implementing, and managing main stream social media tools (e.g., blogs and micro-blogs, social network sites, and content communities) from a public sector perspective. Through social media, government organizations can inform citizens, promote their services, seek public views and feedback, and monitor satisfaction with the services they offer so as to improve their quality. Given the exponential growth of social media in contemporary society, it has become an essential tool for communication, content sharing, and collaboration. This growth and these tools also present an unparalleled opportunity to implement a transparent, open, and collaborative government. However, many government organizations, particularly those in the developing world, are still somewhat reluctant to leverage social media, as it requires significant policy and governance changes, as well as specific know-how, skills and resources to plan, implement and manage social media tools. As a result, governments around the world ignore or mishandle the opportunities and threats presented by social media. To help policy makers and governments implement a social media driven government, this book provides guidance in developing an effective social media policy and strategy. It also addresses issues such as those related to security and privacy.

This textbook has been designed to emphasize the differences between languages and how this affects the translation of a text from one language into another. It is based upon the principle that the translator must first know the meaning of the source text before he can translate it into the receptor language. New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with

contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

First published in 1922, the novel "Sitti Nurbaya: A Love Unrealized," by Marah Rusli, retains the poignancy that made it a modern Indonesian classic. In terms of its social impact in what was then the Dutch East Indies, "Sitti Nurbaya" may be compared to "Uncle Tom's Cabin" in the ante-bellum United States. Even to this day, the issues of injustice and indignities suffered by women that this novel raised continue to be debated throughout the country. Rich in description, dense with ironic foreboding and the inexorable workings of fate, Sitti Nurbaya is Samsu and "Sitti Nurbaya"'s ill-fated love story. But in their wishes, the reader might also discern young people's tantalizing dream of what the East Indies society might become, or could become, if only local genius, embodied in a modernizing youth emancipated from stifling traditions, could fuse with European genius in mutual respect and admiration. This too was, of course, a dream never to be realized, and one perhaps which never could have been realized.

Languages are dying at an alarming rate all over the world. Estimates range from 50% to as much as 90% by the end of the century. This collection of original papers tries to strike a balance between theoretical, practical and descriptive approaches to language death and language maintenance. It provides overviews of language endangerment in Africa, Eurasia, and the Greater Pacific Area. It also presents case studies of endangered languages from various language families. These descriptive case studies not only provide data on the degree of endangerment and the causes of language death, but also provide a general sociolinguistic and typological characterization the language(s) under discussion and the prospects of language maintenance (if any). The volume will be of interest to all those concerned with the ongoing extinction of the world's linguistic diversity. Exploring the function of money as a medium of exchange and a store of value, Niehaus provides a comprehensive introduction to the pure theory of money and monetary policy. Published in Indonesia in 2005, *The Rainbow Troops*, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's *The Kite Runner*: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

In 1999, the people of Indonesia's Riau Archipelago were angry. Resentful of decades of "internal colonialism" by Mainland Sumatra, and concerned that they lacked the education and skills to flourish in a globalised world, they dreamed of inhabiting a province of their own. When the post-authoritarian state committed itself to democracy and local autonomy, they lobbied vigorously and successfully for the region to be returned to its "native" Malay residents. Riau Islands Province was born in 2004. This book explores what happened next.

In less than a year, Lawrence Ferlinghetti won a lifetime achievement award from the Author's Guild, received the Frost Medal from the Poetry Society of America, was elected to the American Academy of Arts and Letters, and celebrated the 50th anniversary of his renowned City Lights Bookstore. Now, instead of resting on these many laurels, the elder statesman of American poetry lights out for the territories with Book I of his own born-in-the-U.S.A. narrative, *Americus*. Describing his work as part documentary, part public pillow-talk, part personal epic....a descant, a canto unsung, a banal history, a true fiction, lyric and political..., Ferlinghetti merges certain universal texts, snatches of song, words or phrases, murmuring of love or hate, from Lotte Lenya to the latest soul singer, sayings and shibboleths from Yogi Berra to the National Anthem and the Gettysburg Address or the Ginsberg Address, that haunt our nocturnal imagination.... This sit-up-and-take-notice work breaks new ground in the grand tradition of Whitman, Williams, Olson and Pound, as Ferlinghetti stalks our literary and political landscapes, past and present, to articulate the unique voice of America and create an autobiography of our collective American consciousness. Born to Italian parents in Yonkers, New York in 1919, Lawrence Ferlinghetti served in the navy during WWII and received degrees from the U. of North Carolina, Columbia and the Sorbonne in Paris. Since 1953 he has been the owner and publisher of City Lights Books in San Francisco.
