This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.

It is widely regarded as the last of the great road races in motor sport, annually drawing thousands of dedicated fans to a gem of an island in the middle of the Irish Sea. Steeped in nostalgia and brimming with atmosphere, controversy and spine-chilling action, the magic of the oldest race on the international calendar is captured in a neatly-sized book packed with 120 monochrome and full colour images. TT Centenary goes right back to the original St John's Course and also includes images from the Clypse Course used for a short period in the 1950's. The awesome 37.7 mile Snaefell Mountain Course, which was the home of the British Motorcycle Grand Prix for four decades, remains the ultimate challenge to every discerning road racer.
