

children, and maybe even a house in the country. But life has other plans. Daniel works on the 101st floor of the World Trade Center. Erin is drinking margaritas on a beach in Mallorca, helping her best friend get over a breakup, when she hears a plane has crashed into Daniel's building. On a television at the smoky hotel bar, she watches his building collapse. She makes her way home with the help of a stranger named Alec, and once there, she haunts Ground Zero, nearby hospitals, and trauma centers, plastering walls and fences with missing-person flyers. But there's no trace of Daniel. After accepting Daniel's death, Erin struggles to get her life back on track but makes a series of bad decisions and begins to live her life in a self-destructive fog of booze and pills. It's not until she hits rock bottom that she realizes it's up to her to decide: Was her destiny sealed with Daniel's? Or is there life after happily ever after?

A book about the best paper airplane on the planet (The Nakamura Lock) and a box containing pre-printed and partially folded paper for airplane making. Provides information on the principles of aerodynamics, suggestions for designing airplanes, and instructions for folding paper planes and doing stunts and playing games with them.

Come From Away: Welcome to the Rock - a fully illustrated companion volume to the hit Tony Award-winning Broadway musical, featuring the book and lyrics for the first time in print, backstage stories and the real history behind the show's events, character design sketches, and songs that ended up on the cutting room floor. The Tony Award-winning Broadway musical *Come From Away* tells the remarkable true story of a small town that welcomed the world. On September 11, 2001, 38 planes and 6,579 passengers were forced to land in the provincial town of Gander, Newfoundland. The local residents opened their arms to the displaced visitors, offering food, shelter, and friendship. In the days that followed, cultures clashed and nerves ran high, but uneasiness turned into trust, music soared into the night, and gratitude grew into enduring friendships. *Come From Away: Welcome to the Rock* is the ultimate companion piece to Irene Sankoff and David Hein's smash-hit musical based on that extraordinary experience. Featuring the complete book and lyrics for the first time in print, a foreword by Canadian Prime Minister Justin Trudeau, and exclusive photos of the company and physical production, this essential companion also includes original interviews with passengers, Gander residents, and the actors who portray them. The narrative by theater historian Laurence Maslon details the events of that memorable and challenging week and also traces the musical's development from the ten-year reunion of residents and airline passengers in Gander, where the idea for the musical was born, to the global phenomenon it is today. *Come From Away: Welcome to the Rock* gives an unprecedented look behind the curtain and demonstrates why the story has touched so many so deeply: Because we come from everywhere, we all come from away.

Head right outdoors with this collection and have many hours of high-flying fun!" Full Color Edition: This exciting new twist on paper airplanes features simple to advanced designs. These are not your standard origami paper airplanes. Several designs are capable of reaching well over 150 feet. Detailed pictures guide you through step-by-step construction of the baseline designs and standard variants. Templates are included for 35 paper airplanes ranging from business jets, fighters, bombers, spy planes, and paper airplanes with variable sweep and forward swept wings. Test your skills at building and flying various models and even design your own, while experimenting with the wonders of flight. All of these paper airplanes are constructed using standard 8.5 x 11 20-24lb computer paper. The initial concept for these paper airplanes was developed 20 years ago by a middle school kid. That kid was me. This book is recommended for kids and adults 8 years or older. Kids younger than 10 years old may require assistance during construction. Pilots 6 years old and older are welcome.

Filmmaker, painter, anthropologist, musicologist and occultist--Harry Smith (1923-1991) was an incomparable polymath and seminal figure in the realms of beat culture and avant-garde art. Smith's kaleidoscopic experimental films have influenced generations of artists and cinephiles, while his landmark three-volume compilation, the *Anthology of American Folk Music* (1952), laid the foundation for the folk music revival of the 1950s and 1960s. In addition to his ecstatic artwork, Smith is renowned for his vast collections of curious objects. The *Collections of Harry Smith*, *Catalogue Raisonné* series spotlights and indexes his eclectic research obsessions. Volume one features richly detailed photographic documentation of 251 paper airplanes gathered by Smith from the streets of New York City over an approximately 20-year period. Whimsical and weird, the paper airplanes rank among Smith's most mysterious collecting pursuits. This extensive compendium presents the fruits of his extraordinary aeronautic pursuit and highlights the tangled history and myths that accompany them. Offers advice on making paper airplanes, and shares instructions for making eighteen different models, including the slender, long-nosed Egret; the tiny, fast Pipit; the broad-winged Condor; and the highly maneuverable Mockingbird--a plane just made for airborne stunts. Reissue. Offers instructions for making eighteen different paper airplanes, and discusses the background of each design.

Paper airplanes as serious science? No longer shamefully relegated to the back rows of elementary-school sports stadiums, paper airplanes come into their own with this amusing -- and instructive -- book. The Great International Paper Airplane Book documents the proceedings of the first (and possibly only) International Paper Airplane Competition conducted by Scientific American. In addition to the behind-the-scenes story and official records of the Competition, readers will discover intriguing mini-essays on the historical, aesthetic, technological, and folkloric aspects of the paper airplane and on its startling implications for the future of aviation. Best of all, there are dozens of cut-fold-and-fly-them-yourself planes to experiment with. Combining real science with outright fun, this book appeals to paper airplane enthusiasts and would-be aviators of every age.

NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.
