Jill Frayne's long-term relationship was ending and her daughter was about to graduate and leave home. She decided to pack up her life and head for the Yukon. Driving alone across the country from her home just north of Toronto, describing the land as it changes from Precambrian Shield to open prairie, Jill finds that solitude in the wilds is not what she expected. She is actively engaged by nature, her moods reflected in the changing landscape and weather. Camping in her tent as she travels, she begins to let go of the world she's leaving and to enter the realm of the solitary traveller. The wilderness begins to work its magic on her, and she begins to feel a bond with the land and a kind of serenity. In *Starting Out in the Afternoon*, Frayne struggles to come to terms with her vulnerabilities and begins to find peace. In beautifully spare but potent language, she delivers an inspiring, contemplative memoir of the middle passage of a woman's life and an eloquent meditation on the solace of living close to the wild land.

A book that reveals the untold story of one of Long Island's most controversial and eccentric striped bass fishermen. "Night Tides" is as much a tale of nature's gifts too often taken-for-granted, as it is one of blinding individual obsession.

Tide and Current chronicles ten years in the life of author and artist Carol Araki Wyban, during which she lived with, learned about, and came to love the fishponds of Hawai'i. In lyric prose and art, the book captures the essence of the timeless ecological truths

she discovered. The author relates her experiences from the viewpoint of an entrepreneur, but one with a deep commitment to the past and to the legacy given to us by the ancient Hawaiians regarding the use of fishponds as food production systems. Unlike other native cultures that hunted and gathered over vast territories, the Hawaiians developed renewable, sustainable, and comprehensive management of their natural resources in the islands' limited space. They were innovators who took a great step from catching fish to raising fish. Wyban presents not only the daily routine of life at a commercial fishpond, but also an in-depth look at how the Hawaiians managed their resources, the technology they developed, and the myths, legends, and kapu associated with their fishponds.

Secret Beaches of Greater Victoria is a comprehensive review of nearly 100 beaches on the Saanich Peninsula and in the Greater Victoria area. While some of these are well used by people living nearby, many are virtually impossible to find without combing through official maps and back-road guides. Even the seemingly well-known shoreline from Oak Bay to Beacon Hill hides its own tiny pocket beaches and obscure coves. Just as important as finding these spots is knowing what to expect. Thus each location is accompanied by detailed information that any beach explorer should know before setting out. Is the beach a few level steps from a vehicle or down a high, steep bank? Is the beach suitable for children? Large groups? Kayakers? All of these questions and many more are answered in this book, which includes Theo's hand-drawn maps,

The amazing resurgence of the East Coast's premier saltwater gamefish has sent hundreds of thousands of anglers in search of their fathers' and grandfathers' favorite quarry: the magnificent striped bass. But the best tools and techniques have changed since the striped bass was nearly wiped out, and anyone who has a hope of catching it must know this fish's many unique characteristics and habits. In *The Ultimate Guide to Striped Bass Fishing*, noted angler and author Eric Burnley has compiled everything any angler needs to know to be successful at catching this wonderful fish. Burnley starts with the biology of the fish itself--its life cycle, migratory patterns up and down the seacoast, the baitfish and other foods it prefers, and the underwater structures anglers must learn to find monster stripers. He then addresses in exacting detail every possible way the sport angler can catch stripers, including: \* Spin casting around inshore structures from shore or boat \* Fly-fishing casts, retrieves, and special techniques \* Bait fishing from shore or boat with baitfish, shrimp, sandworms, eels, clams, and chum \* Trolling tackle, depths, direction, tide, and time of day \* Surfcasting tools, tips, and techniques He also tells where to fish and when, gives detailed instruction on appropriate tackle and must-know knots, and instructs on invaluable rigs and the conditions where they are most successful. With comprehensible, easy-to-follow, step-by-step instructions, dozens of clear illustrations, and years of experience as a master fisherman, Burnley's *Ultimate Guide of Striped Bass Fishing* is sure to be the first place for striped-bass anglers to look, and the last word on the subject.

When a powerful Archon offers his army in exchange for Markos's marriage to his daughter, Caro must choose: her love for Markos, or the fate of Akhaia? And more important: how much is she willing to risk to defy the sea god's wishes and chart her own course? With shipwrecks, lost treasure, old and new enemies, dark magic, and breathtaking romance, Sarah Tolcser weaves another epic story about chasing your fate.

Waiting for High Tide has earned two STARRED reviews from Publisher's Weekly and Kirkus! For one young boy, it's a perfect summer day to spend at the beach with his family. He scours the high tide line for treasures, listens to the swizzling sound of barnacles, and practices walking the plank. But mostly he waits for high tide. Then he'll be able to swim and dive off the log raft his family is building. While he waits, sea birds and other creatures mirror the family's behaviors: building and hunting, wading and eating. At long last the tide arrives, and human and animal alike savor the water. Another beautiful ode to life lived in harmony with nature, and by the labor of one's own hands, from an artist of great warmth and clarity.
