The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world' Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. A shiny green car the same color as the ocean, with wings like a swooping bird. A car to take the whole family to the beach. The book examines a wide variety of pop culture phenomena such as carnivals, celebrities, and the road from nineteenth century humbuggery (P. T. Barnum's term) to today's hype. In *Popular Culture in a New Age* you'll learn about: the three faces of popular culture: folk, fake, and pop--how they relate and how they differ today's popular icons the empire of Disney World Marshall McLuhan, our era's most profound and shocking electronic thinker African-American popular culture and style *Popular Culture in a New Age* gives characterization to the postmodern world in a chapter on “postmodern pop,” followed by the shift from civil religion to civil disobedience and the “myth of success.” This insightful book will help you understand the way we eat, think, vote, and respond to our fast-changing world in the era of hype, spin doctors, chat rooms, and jargon.

Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Poetry is the most complex and intricate of human language used across all languages and cultures. Its relation to the worlds of human experience has perplexed writers and readers for

centuries, as has the question of evaluation and judgment: what makes a poem "work" and endure. The Poem as Icon focuses on the art of poetry to explore its nature and function: not interpretation but experience; not what poetry means but what it does. Using both historic and contemporary approaches of embodied cognition from various disciplines, Margaret Freeman argues that a poem's success lies in its ability to become an icon of the felt "being" of reality. Freeman explains how the features of semblance, metaphor, schema, and affect work to make a poem an icon, with detailed examples from various poets. By analyzing the ways poetry provides insights into the workings of human cognition, Freeman claims that taste, beauty, and pleasure in the arts are simply products of the aesthetic faculty, and not the aesthetic faculty itself. The aesthetic faculty, she argues, should be understood as the science of human perception, and therefore constitutive of the cognitive processes of attention, imagination, memory, discrimination, expertise, and judgment.

Roger Scruton is one of the outstanding British philosophers of the post-war years. Why then is he at best ignored and at worst reviled? Part of the reason is that he is an unapologetic conservative in the tradition of Edmund Burke. That conservative instinct was sharpened during the Paris riots of 1968. From that point on Scruton set himself the task of stridently opposing what he has since termed 'the culture of repudiation'. In so doing he targeted liberals in the tradition of Russell and Mill, existentialists like Sartre and post modernists in the fashion of Foucault. Here is a brilliant description of Scruton's life and work and a careful analysis of his central ideas. Scruton defends an Hegelian and Burkean view of human nature, one founded on allegiance to the State as the guarantor of tangible freedom. He thus opposes any and all variations of the social contract theory, liberal or existential individualism or philosophical theories of the 'authentic' self in isolation from its kind. In recent years his conservative notion of the nation state has been used to reflect upon and criticise the European Union, the United Nations and the idea that the Middle East can be reformed along Western democratic lines. Scruton, argues the author of this book, is the one British intellectual who has courageously rowed against the tide of liberal conviction and has arrived at political conclusions the truth of which are

becoming more and more obvious. This book argues conclusively that Roger Scruton is a prophet for our times.

From the Preface by Nicholas Lash: The risk is that a collection such as this will lack the unity necessary to make it useful, and readable, as a book. But I selected these particular pieces because, for all the variety of their themes and levels of treatment, they seemed to me to illustrate two enduring preoccupations: an attempt to grapple with problems arising from the historical character of Christian faith and theology, and a conviction that, far from surrendering its critical integrity and (relative) autonomy, Christian theological reflection only attains its own proper rigour and significance if it is continually borne in mind that such reflection is dependent upon, secondary to, Christian faith and practice. I have therefore concentrated on these two issues in the Introduction. If the emphasis in these essays is on questions of method, this is partly because the confusion and uncertainty which many Christians experience today is

perhaps less obviously the expression of a crisis of faith than a crisis of culture: we are not sure how to go about the business of connecting our Christianity with other aspects of our life and experience; we are not sure what would count, and on what grounds, as appropriate ways of giving linguistic and conceptual expression to our faith. And these are therefore essays, essais, attempts, contributions to a discussion. In a situation such as ours, there is an inherent implausibility in the idea that any one man - be he theologian, philosopher, economist, or politician - can come up with answers, with solutions to our common problems.

Look We Have Coming to Dover! is the most acclaimed debut collection of poetry published in recent years, as well as one of the most relevant and accessible. Nagra, whose own parents came to England from the Punjab in the 1950s, draws on both English and Indian-English traditions to tell stories of alienation, assimilation, aspiration and love, from a stowaway's first footprint on Dover Beach to the disenchantment of subsequent generations.

Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people. In turn, this collection argues, contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals, particularly as they relate to child and adolescent readers and our experiences of them. The essays therein suggest that we struggle now, as the Victorians did then, to assert a cohesive understanding of

young readers, and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger (even global) scale.
