(Amadeus). These intensely personal and perceptive essays explore the author's life as a pianist practicing, performing, teaching, and writing but they could be the thoughts and reflections of any artist. They recount the challenges, rewards, and joys of her experiences in her chosen profession.

This book provides a practical perspective on cognitive concerns and their relationship to vocational and psychosocial adjustment issues for people with multiple sclerosis (MS). It also provides practical approaches to rehabilitation, vocational, and psychosocial interventions, with illustrative case studies. Of particular note is that all tables, figures, and case study material complement the text and can be used for PowerPoint slides or overheads in training programs for allied health personnel. Of particular interest are discussions of the cognitive issues in MS, which have not previously been well discussed in the literature, clear discussions of assessment tools and placement models in vocational assessment and rehabilitation planning, and an extensive reading list and self-help resource lists that will be of assistance in understanding psychosocial adjustment in this population. This guide is an outgrowth of vocational rehabilitation counselor training conducted by the authors, and feedback from the counselor attendees helped to refine the book. It will be helpful to vocational rehabilitation counselors and to all members of the health care team concerned about the psychosocial status of their clients with MS. The book is divided into four sections: A broad-based medical overview provides a basic discussion of the course of the MS disease process, its diagnosis and symptomatology, medical treatments, and rehabilitation A discussion of neuropsychological concerns, including concepts of importance in vocational rehabilitation and the specific cognitive and related impairments that are characteristic of MS and that cause vocational difficulties A review of vocational rehabilitation interventions focusing on assessment and rehabilitation planning A review of psychosocial issues and interventions that focus on a wide range of issues affecting the family and community The book is designed to be used as a basic training text for an individual counselor or health professional seeking to learn more about MS vocational rehabilitation or psychosocial adjustment and neuropsychology. It can also be used as the core material for training groups. Case studies are included as small group discussion training tools.

This innovative volume introduces Twinley's concept of 'The Dark Side of Occupation'. Focused on less explored and under-addressed occupations, it is an idea which challenges traditional assumptions around the positive, beneficial, health-promoting relationship between occupation and health. Emphasising that people's individual experiences of occupations are not always addressed and may not always be legal, socially acceptable, or conducive to good health, the book investigates how these experiences can be explored theoretically, in practice and research, and in curriculum content for those learning about occupation. Beginning with a discussion of some assumptions and misunderstandings that have been made about the concept, the substantive chapters present and analyse tangible examples of the concept's applicability. This ground-breaking and practice-changing text provides ideas for future research and highlights contemporary, internationally relevant issues and concerns, such as the coronavirus pandemic. This book is an essential purchase for students in occupational therapy and science, and valuable supplementary reading for practitioners. It is also relevant to a wide interdisciplinary audience with an interest in human occupation, encompassing anthropologists, councillors, criminologists, nurses, and human geographers.

Samia Serageldin's heroine, the daughter of a politically prominent, land-owning Egyptian family, witnesses the changes sweeping her homeland. Looking back to the glamorous Egypt of the pashas and King Faruk, Serageldin moves forward to the police state of the colonels who seized power in 1952 and the disastrous consequences of Nasser's sequestration policies. Through well-chosen portraits and telling descriptions of the era's fashions and furnishings, Serageldin conveys detailed social and cultural information. She offers a glimpse of the beach at Agami in the 1960s and conveys the change in mood through the Sadat years. Serageldin's fictional treatment of recent Egyptian history includes key events leading to the rise of Islamic fundamentalism, such as the assassination of writer Yussef Siba'yi and the harassment of theologian Nasr Abu Zayd. Serageldin's heroine goes into exile in Europe and the United States but returns to Egypt in an attempt to reconcile her past and present. Charting fresh territory for the American reader, this semi-autobiographical novel is one of the most sensitive and accessible documents of historical change in Egyptian life. "Extraordinary . . . No one but Chaim Potok could have written this strangely sweet, compelling, and deeply felt novel."—The Cleveland Plain Dealer In his powerful *My Name is*

Asher Lev, Chaim Potok gave the world an unforgettable character and a timeless story that The New York Times Book Review hailed as “little short of a work of genius.” The Chicago Sun-Times declared it “a story that had to be told.” Now, Chaim Potok’s beloved character returns to learn, to teach, to dream, in The Gift of Asher Lev. Twenty years have passed. Asher Lev is a world-renowned artist living with his young family in France. Still, he is unsure of his artistic direction. Success has not brought ease to his heart. Then Asher’s beloved uncle dies suddenly, and Asher and his family rush back to Brooklyn—and into a world that Asher thought he had left behind forever. It is a journey of confrontation and discovery as Asher purges his past in search of new inspiration for his art and begins to understand the true meaning of sacrifice and the painful joy in sharing the most precious gift of all. Praise for The Gift of Asher Lev “A masterwork.”—Newsday “Rivals anything Chaim Potok has ever produced. It is a book written with passion about passion. You’re not likely to read anything better this year.”—The Detroit News “Fascinating.”—The Washington Post Book World “Very moving.”—The Philadelphia Inquirer A modern classic, Einstein’s Dreams is a fictional collage of stories dreamed by Albert Einstein in 1905, about time, relativity and physics. As the defiant but sensitive young genius is creating his theory of relativity, a new conception of time, he imagines many possible worlds. In one, time is circular, so that people are fated to repeat triumphs and failures over and over. In another, there is a place where time stands still, visited by lovers and parents clinging to their children. In another, time is a nightingale, sometimes trapped by a bell jar. Now translated into thirty languages, Einstein’s Dreams has inspired playwrights, dancers, musicians, and painters all over the world. In poetic vignettes, it explores the connections between science and art, the process of creativity, and ultimately the fragility of human existence.
