From the New York Times bestselling author of *I Quit Sugar* and *First, We Make the Beast Beautiful* comes this proven 2-week plan for reducing anxiety and beating one of its leading causes—sugar addiction—using 8 simple, sustainable dietary shifts. Eating more than 6 teaspoons of sugar a day? No wonder you're anxious. Anxiety has a lot to do with lifestyle choices, including what you put in your mouth. Sarah Wilson is an expert on sugar addiction and its connection to the most widespread mental health concern—chronic anxiety—affecting millions worldwide today. One in six people in the West alone suffer from an anxiety-related illness. While scientists know that anxiety is a chemical imbalance in the brain, recent studies have linked this condition to sugar consumption and inflammation in the gut. In *The Anti-Anxiety Diet*, Wilson unravels the cutting-edge science linking sugar addiction, inflammation, and gut health to mental health. “If you have fire in the gut,” Sarah advises, “you have fire in the brain.”

ELIZABETH GILBERT Wake up and reclaim your one wild and precious life. New York Times bestselling author Sarah Wilson shows you how in this radical spiritual guidebook, the book we need NOW. Many of us are living with the sense that things are not right with the world and are in a state of spiritual PTSD. We have retreated, morally and psychologically; we are experiencing a crisis of disconnection—from one another, from our true values, from joy, and from life as we feel we are meant to be living it.

Sarah Wilson argues that this sense of despair and disconnection is ironically what unites us—that deep down, we are all feeling that same itch for a new way of living. Drawing on science, literature, philosophy and the wisdom of some of the world’s leading experts, and her personal journey, Wilson offers a hopeful path forward to the life we love. En route, she shows us how to wake up and reconnect with life using “wild practices” that include: · Hike. Embrace the “walking cure” as great minds throughout history have. · Go to your edge. Do what scares you and embrace discomfort daily. ·

#Buylesslivemore. Break the cycle of mindless consumption and get light with your life. · Become a soul nerd. Light up your intellect with the arts. · Get “full-fat spiritual”. Have an

Jessica Seinfeld can speak for all parents who struggle to feed their kids right and deal nightly with dinnertime fiascos. As she wages a personal war against sugars, packaged foods, and other nutritional saboteurs, she offers appetizing alternatives for parents who find themselves succumbing to the fastest and easiest (and least healthy) choices available to them. Her modus operandi? Her book is filled with traditional recipes that kids love, except they're stealthily packed with veggies hidden in them so kids don't even know! With the help of a nutritionist and a professional chef, Seinfeld has developed a month's worth of meals for kids of all ages that includes, for example, pureed cauliflower in mac and cheese, and kale in spaghetti and meatballs. She also provides revealing and humorous personal anecdotes, tear-out shopping guides to help parents zoom through the supermarket, and tips on how to deal with the kid that "must have" the latest sugar bomb cereal. But this book also contains much more than recipes and tips. By solving problems on a practical level for parents, Seinfeld addresses the big picture issues that surround childhood obesity and its long-term (and ruinous) effects on the body. With the help of a prominent nutritionist, her book provides parents with an arsenal of information related to kids' nutrition so parents understand why it's important to throw in a little avocado puree into their quesadillas. She discusses the critical importance of portion size, and the specific elements kids simply must have (as opposed to adults) in order to flourish now and in the future: protein, calcium, vitamins, and Omega 3 and 6 fats. Quit Sugar: Simplicious Flow. She is ranked as one of the top 200 most influential authors in the world. Sarah blogs in an intimate fashion - on philosophy, anxiety, minimalism and anti-consumerism - at sarahwilson.com, lives in Sydney, Australia, rides a bike everywhere, is a compulsive hiker and is eternally curious. In first, we make the beast beautiful, Sarah directs her intense focus and fierce investigatory skills onto this lifetime companion of hers, looking at the triggers and treatments, the fashions and fads. She reads widely and interviews fellow sufferers, mental health experts, philosophers, and even the Dalai Lama, processing all she learns through the prism her own experiences. Sarah pulls at the thread of accepted definitions of anxiety, and unravels the notion that it is a difficult, dangerous disease that must be medicated into submission. Ultimately, she re-frames anxiety as a spiritual quest rather than a burdensome affliction, a state of yearning that will lead us closer to what really matters. Practical and poetic, wise and funny, this is a small book with a big heart. It will encourage the myriad sufferers of the world's most common mental illness to feel not just better about their condition, but delighted by the possibilities it offers for a richer, fuller life.
