The Constitution of India is the supreme law of land. The document lays down extensively the framework demarcating fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written constitution of any country on earth. B. R. Ambedkar, chairman of the drafting committee, is widely considered to be its chief architect. Constitution is a living document, an instrument which makes the government system work. Its flexibility lies in its amendments. In this edition, the text of the Constitution of India has been brought up-to-date by incorporating therein all amendments made by Parliament up to and including the Constitution (One Hundredth Amendment) Act, 2015 which contains details of acquired and transferred territories between the Governments of India and Bangladesh and the same has been included in Annexure. As concern about immigration has grown within Europe in recent years, the European Union has brought pressure to bear on countries that are allegedly not sufficiently

governing irregular migration with and within their borders. This book looks at that issue in Turkey and Morocco, showing how it affects migrants in these territories, and how migrant illegality has been produced by law, practiced and negotiated by the state, other civil society actors, and by migrants themselves. Ay?en Üstübici focuses on a number of different aspects of migrant illegality, such as experiences of deportation, participation in economic life, and access to health care and education, in order to reveal migrants' strategies and the various ways they seek to legitimise their stay.

Focusing on the connections between creativity and social change in the Americas, this collection encourages scholars to become cultural agents by reflecting on exemplary cases and thereby making them available as inspirations for more constructive theory and more innovative practice. Creativity supports democracy because artistic, administrative, and interpretive experiments need margins of freedom that defy monolithic or authoritarian regimes. The ingenious ways in which people pry open dead-ends of even apparently intractable structures suggest that cultural studies as we know it has too often gotten stuck in critique. Intellectual responsibility can get beyond denunciation by acknowledging and nurturing the resourcefulness of common and uncommon agents. Based in North and South America, scholars from fields including anthropology, performance studies, history, literature, and communications studies explore specific variations of cultural agency across Latin America. Contributors reflect, for example, on the paradoxical programming and reception of a state-controlled Cuban radio station that connects listeners at home and abroad; on the intricacies of indigenous

protests in Brazil; and the formulation of cultural policies in cosmopolitan Mexico City. One contributor notes that trauma theory targets individual victims when it should address collective memory as it is worked through in performance and ritual; another examines how Mapuche leaders in Argentina perceived the pitfalls of ethnic essentialism and developed new ways to intervene in local government. Whether suggesting modes of cultural agency, tracking exemplary instances of it, or cautioning against potential missteps, the essays in this book encourage attentiveness to, and the multiplication of, the many extraordinary instantiations of cultural resourcefulness and creativity throughout Latin America and beyond. National Bestseller The definitive history of the Montreal Canadiens – now updated with the inside story of the tumultuous 2009 season. Before there were slapshots, Foster Hewitt, or even an NHL, there were the Canadiens. Founded on December 4, 1909, the team won its first Stanley Cup in 1916. Since then, the Canadiens have won 23 more championships, making them the most successful hockey team in the world. The team has survived two wars, the Great Depression, NHL expansion, and countless other upheavals, thanks largely to the loyalty of fans and an extraordinary cast of players, coaches, owners, and managers. The Montreal Canadiens captures the full glory of this saga. It weaves the personalities, triumphs, heartaches, and hysteria into a compelling narrative with a surprise on every page. It sheds new light on old questions – how the team colours were chosen, how the Canadiens came to be known as the Habitants – and goes behind the scenes of tumultuous recent events still awaiting thorough examination: why Scotty Bowman was passed over as general manager after Sam Pollock resigned; why Pollock's successor, Irving Grunman, failed; why

Serge Savard was dumped as GM so hastily despite his record. Colourful and controversial, The Montreal Canadiens is the history of a team that has been making news for 100 years – and continues to do so with the return of legendary player Bob Gainey as general manager, determined to bring the Stanley Cup back to Montreal.

A quiet revolution is taking place in avant-garde French poetry and prose. In this

collection of twelve interviews with some of France's most important poets and writers, Serge Gavronsky introduces American readers to these exciting new developments. As Gavronsky explains, a neolyricism is now replacing the formalism of the 1960s, '70s, and '80s. In his substantial introduction, Gavronsky notes how the ideological definition of writing (*écriture*) has given way to more open forms of writing. Human experiences of the most ordinary kinds are finding a place in the text. These interviews offer a view of the poets' and writers' creative processes and range over such topics as current literary theory, the impact of American poetry in France, and the place of feminism in contemporary French writing. Each interview is accompanied by samples of the writer's work in French and in Gavronsky's English translations. *Toward a New Poetics* provides a highly informative cultural and critical perspective on contemporary writing in France, introducing us to works which are now transforming the idea of literature itself.
