Real Life Bully Prevention For Real Kids addresses this pervasive problem by offering students hands-on activities. Teachers will want to use this book in their classrooms with their students as part of the school's anti-bullying curriculum. As an added bonus, the activities reinforce English/language arts, social studies, and health education curricular goals. Counselors, therapists, and school administrators can also use the activities in large and small group instruction. Additionally, leaders of after-school programs and youth leadership programs, such as scouting, dramatics classes, and religious education classes, will find the activities helpful in addressing their bully prevention programs. Each activity contains a description, goals for children, and helpful hints for adults to guide their youngsters through the program.
