Lessons from the Road is a behind-the-scenes look at life as a touring Christian rock band. Written by Pastor Nigel James with major contributions from Tai Anderson, Brad Avery, David Carr, Mark Lee and Mac Powell. It features: Conversations and life-changing lessons that took place on tour On the road memories and flashbacks from the band The passion behind selected songs Devotionals that Nigel and Third Day shared on the road Contemporary worship music shapes the way evangelical Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship." "Congregational music-making" is

thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

Reviewing game film is a discipline that sports teams often incorporate after each game. Teams watch game videos to identify mistakes, make adjustments, consider radical changes, and highlight successes. The goal of this analysis is to facilitate individual and team improvements that will positively affect subsequent games. The fundamental reason why a team needs adjustments is not always evident in the middle of the game. But evaluating important elements after a game gives coaches and players the opportunity to review individual plays and players in a more relaxed setting away from the time constraints and pressures of the game. So why

aren't pastors and worship teams incorporating similar evaluative practices? Implementing a collaborative process of analyzing worship services or planning for upcoming services requires a deep level of humility, trust, and shared accountability. It also requires selfless leaders who are willing to sacrifice their own ideas and interests for the greater worshiping good of the congregation. *Better Sundays Begin on Mondays* offers foundational worship considerations to help leadership teams ask questions evaluatively rather than defensively. These weekly reflections encourage worship leaders and their teams to think beyond style to biblical and theological worship content.

Nothing is more essential than knowing how to worship the God who created us. This book focuses readers on the essentials of God-honoring worship, combining biblical foundations with practical application in a way that works in the real world. The author, a pastor and noted songwriter, skillfully instructs pastors, musicians, and church leaders so that they can root their congregational worship in unchanging scriptural principles, not divisive cultural trends. The relationship between musical activity and ethical significance occupies long traditions of thought and reflection both within Christianity and beyond. From concerns regarding music and the passions in early Christian writings through to moral panics regarding rock music in the 20th century, Christians have often gravitated to the view that music can become morally weighted, building a range of normative practices and prescriptions upon particular modes of ethical judgment. But how should we think about ethics and Christian musical activity in the contemporary world? As studies of Christian musicking have moved to incorporate the experiences, agencies, and relationships of congregations, ethical questions have become implicit in new ways in a range of recent research - how do communities negotiate questions of value in music? How are processes of encounter with a variety of different others negotiated through musical activity? What responsibilities arise within musical communities? This volume seeks to expand this conversation. Divided into four sections, the book covers the relationship of Christian musicking to the body; responsibilities and values; identity and encounter; and notions of the self. The result is a wide-ranging perspective on music as an ethical practice, particularly as it relates to contemporary religious and spiritual communities. This collection is an important milestone at the intersection of ethnomusicology, musicology, religious studies and

theology. It will be a vital reference for scholars and practitioners reflecting on the values and practices of worshipping communities in the contemporary world.
