A first entry in a new series by the spiritual teacher and author of *The Journey of Being Human* describes how the natural freedom and creativity of childhood is typically sacrificed in favor of productivity, calling for more liberating approaches that enable parents to become aware of their own negative conditioning. Original. 20,000 first printing.

A popular South American writer chronicles his journey along the ancient road to Santiago, offering the exercises in self-control and self-discovery that he learned along the way. Original. Only once in the history of human consciousness, says Osho, has a thing like Zen come into being. In *Zen: Its History and Teachings*, the noted mystic explains that Zen has no rituals, no chanting, no mantras, no scriptures — only short, evocative parables and teachings that make it ideal for the modern seeker. Using his characteristic humorous, encouraging style, Osho guides readers through the origins and development of this seminal spiritual tradition that is neither religion nor dogma nor creed. He provides a context for those who have not been born into the Zen tradition, introducing them to its timeless approach to existence. The book argues that the only preparation for fully experiencing Zen's power is meditative awareness, and Osho presents simple techniques to achieve this awareness. Stunning color photographs throughout offer further inspiration and illumination.

Discover your ability to be brave in times of adversity with *Courage: The Joy of Living Dangerously*—from one of the greatest spiritual teachers of the twentieth century. Courage is not the absence of fear, says Osho. It is, rather, the total presence of fear, with the courage to face it. This book provides a bird's-eye view of the whole terrain—where fears originate, how to understand them, and how to call on your inner strength to confront them. In the process, Osho proposes that whenever we are faced with uncertainty and change in our lives, it is actually a cause for celebration. Instead of trying to hang on to the familiar and the known, we can learn to enjoy these situations as opportunities for adventure and for deepening our understanding of ourselves and the world around us. Having courage is more than just heroic acts in exceptional circumstances. It's a necessity to lead authentic and fulfilling lives on a day-to-day basis. This is the courage to change when change is needed, the courage to stand up for our own truth, even against the opinions of others, and the courage to embrace the unknown in spite of our fears—in our relationships, in our careers, or in the ongoing journey of understanding who we are and why we are here. *Courage* also features meditation techniques specifically designed by Osho to help people cope with their fears. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of London as one of the “1000 Makers of the 20th Century” and by *Sunday Mid-Day* (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

The inner world needs its own vocabulary, and Osho is a master of creating a language to describe experiences of the inner world that is simple, unpretentious and clear. *'The ABC of Enlightenment'* is not just a dictionary but a book on life itself. It contains concise quotes by Osho on a large variety of topics. For those who are unfamiliar with him, this is an easy introduction to his way of life and also an entertaining reference book. From *'Absolute'* to *'Zen'* Osho is never at lack of profoundness and both traditional and contemporary issues are redefined and reinterpreted for a contemporary understanding.

The internationally bestselling guide to "mind-reading" by influencing those around you via non-verbal communication, from human psychology expert Henrik Fexeus. How would you like to know what the people around you are thinking? Do you want to network like a pro, persuade your boss to give you that promotion, and finally become the life of every party? Now, with Henrik Fexeus's expertise, you can. The Art of Reading Minds teaches you everything you need to know in order to become an expert at mind-reading. Using psychology-based skills such as non-verbal communication, reading body language, and using psychological influence, Fexeus explains how readers can find out what another person thinks and feels-- and consequently control that person's thoughts and beliefs. Short, snappy chapters cover subjects such as contradictory signs and what they mean, how people flirt without even knowing it, benevolent methods of suggestion and undetectable influence, how to plant and trigger emotional states, and how to perform impressive mind-reading party tricks. Fexeus gives readers practical (and often fun) examples of how to effectively mind-read others and use this information, benevolently, both in personal and professional settings.

How do you find your original self? Osho perceives man as becoming increasingly alienated from his inner self, gradually losing his natural innocence and creativity in the mindless quest for worldly power and success. To appear strong, the average man suppresses his innate qualities of love and compassion. For Osho, the ideal man is Zorba, the Buddha—a perfect blend of matter and soul. This seamless collection of discourses takes the reader through the

various stages of man's evolution: from Adam to Slave, Son, Homosexual, Priest and Politician, until he attains the pinnacle of his consciousness as the Rebel or Zorba. Sparkling with anecdotes and enriched with brilliant repartee, The Book of Man is a remarkable blend of wisdom and wit.

An anthology of the complex issues of the ego, ambition, power and destructiveness from the perspective of a contemporary mystic. Osho shows the way to liberation from the illusions of the personality through an internal revolution - the psychology of the Buddhas. The ego is just the opposite of your real self. The ego is not you. It never allows you even a glimpse of your real authentic self, and your life is there, in your authenticity. Hence, this ego only produces misery, suffering, fighting, frustration, madness, suicide, murder -- all kinds of crime.

Discourses of a Hindu religious leader.

In a small diner at a location so remote that it stands in the middle of the middle of nowhere, John-a man in a hurry-is at a literal and figurative crossroads. With the guidance of three people he meets at the cafe, John embarks on a quest for answers that metaphorically takes him from the executive suites of the advertising world to the surf of Hawaii's coastline. Along the way, he discovers a new way to look at his life and relationships... and just how much you can learn from a green sea turtle. The Why Cafe will get readers young and free and older and entrenched to rethink their personal yardstick for success. Charming, simple, and inspiring, it will change lives.

The powerful combination of the perennial wisdom of Tao and Osho's insightful and inspirational interpretation makes this a true gem of a book - which will appeal not only to Osho's numerous followers, but also to the increasing number of people who are interested in the wisdom of Tao. Although previously little known, this is one of Osho's classics. He brings his unique perception to the world of Tao, and offers his penetrating and illuminating comments on these original sutras. As always, his inspirational anecdotes and stories illustrate the points he makes - about the spiritual search, love, acceptance and true peace and happiness. With wonderfully irreverent humour, Osho sets out to pierce our disguises, shatter our illusions, cure our addictions and demonstrate the self-limiting and often tragic folly of taking ourselves too seriously.

One of the twentieth century's greatest spiritual teachers inspires us to experience and appreciate both the elation—and sadness—of Joy: The Happiness That Comes from Within. With an artful mix of compassion and humor, Osho shows us that joy is the essence of life, that even unhappiness has its root in joy. He encourages us to accept joy by being grateful to be alive and for the challenges and opportunities in life, and by finding the good in all that we have—rather than setting conditions or demands for happiness. By embracing joy, one comes closer to a true, peaceful, and balanced state. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

"So compelling in its exploration of the human psyche, it's as hard to put down as a thriller...such a force of energy, intensity, and straightforwarness.

One of the greatest spiritual teachers of the twentieth century shares his philosophy on self-discovery, free will, and the search for a place and purpose in life. “I myself am a question. I know not who I am. What to do? Where to go?”—Osho *Destiny, Freedom, and the Soul: What Is the Meaning of Life?* explores deeply human questions, such as: Is there really such a thing as “soul,” and if so, what is it? Where does the concept of karma fit in? Does my life have a special meaning or purpose? Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

In this book, philosopher Paul Brunton (1898-1981) encounters the mysteries and magic of Egypt in the 1930s, including an eerie yet illuminating night spent alone inside the Great Pyramid. Alongside his explorations of ancient Egypt's monuments and gods, Brunton encounters a variety of occultists, fakirs, and dervishes, and even manages to become initiated into the deadly art of snake charming. His frank interviews with Muslim leaders remain relevant today, and his description of the Hajj reflects the beauty and inspiring faith of Mohammad's true

followers. Brunton's journey to discover the furthest reaches of what the mind and body are capable of--and to distinguish various forms of yoga and magic from true spirituality--lead him to the myth of Osiris and to the mystery that is the Sphinx itself. In the end, Brunton turns his attention to his own spiritual path, connecting all of his experiences into a single discovery: that we are more than the body and that the freedom of our spirit can be experienced here and now. This new edition has been updated to incorporate Brunton's final revisions and includes an introduction by the Paul Brunton Philosophic Foundation. "Paul Brunton was a great original and got to a place of personal evolution that illumines the pathways of a future humanity." --Jean Houston, author of *A Passion for the Possible* and *A Mythic Life* "Any serious man or woman in search of spiritual ideas will find a surprising challenge and an authentic source of inspiration and intellectual nourishment in the writings of Paul Brunton."--Jacob Needleman, author of *What is God?*

Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path • Works with the original Marseille Tarot to reveal the roots of Western wisdom • Provides the key to the symbolic language of the Tarot's "nomadic cathedral" • Transforms a simple divination tool into a vehicle for self-realization and healing Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The Way of Tarot shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the 78 cards or "arcana"--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot's hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

The book you hold in your hand or you are just ordering from an online store is a unique book. It is the first book by the contemporary mystic Osho. At the beginning of his public life, Osho who is at that time a professor of philosophy at Jabalpur University, introduces people to a new and unique understanding of meditation during experiential meditation camps. He speaks to the participants and responds to questions. This book is the first published records of Osho's first meditation camp in Rajasthan, India. In fifteen small chapters he gives a condensed presentation of his understanding of meditation which he then elaborates in many more talks and publications - but the essential message is already available in this book. Osho speaks to the individual, not to a collective, not the abstract collective of humanity, or a collective defined by religion or nationality or race but to individuals as the core element of existence. We used one of his opening comments as a longer quote on the front cover of the book as it seem so important "The individual is the unit of the whole and it is through him that both evolution and revolution can take place. You are that unit." Osho, mentions this book on several occasions in his later talks. When the second prime minister of India traveled to Russia, a copy of *The Perfect Way* was with him. And when someone in contact with Osho at the age of ninety stumbled upon *The Perfect Way*, he commented, "All my learning of the scriptures was futile, only this small book is enough." In *The Perfect Way* the reader meets a human being who knows, but who also knows how to convey what he knows. His genius in full flight, he points us

as far as one can with words toward the inner world of the self, toward the zone of silence. What starts on a hot summer day in the early 1960's will prove to be the first seed of a revolutionary experiment in the flowering of human consciousness – one which will eventually transform the lives of millions of people all over the world. "To be without thoughts is meditation," Osho says. "When there are no thoughts, it is then we come to know the one hidden by our thoughts. When there are no clouds, the blue sky is revealed." This book is page after page of blue sky.

From the international bestselling author of *The Book of Fate* comes the story, based on real events, of a four-year-old boy who cannot speak and the shame it brings upon his family in modern-day Iran. Four-year-old Shahaab has not started talking. The family doctor believes there is no cause for concern; nevertheless, Shahaab is ridiculed by others who call him "dumb." Young Shahaab doesn't understand what the word means and thinks it is a compliment, until one day his cousin plays a trick on him to prove to everyone that the boy truly is the neighbourhood idiot. When his mother recounts the incident to her husband, Shahaab is crushed to learn that his father also thinks the boy's speech impediment indicates that his son is an idiot and thus brings shame on the family. He begins to lash out, taking childish revenge on those around him, encouraged by his two imaginary friends, Esi and Bibi. No one in the family can understand Shahaab's wild behaviour except his maternal grandmother, who seems to possess the understanding and the kindness he so desperately craves. Their growing bond leads to a deep friendship in which Shahaab is able to experience some happiness and finally find his voice.

For sixteen years, Marnie Hibbs has raised her dead sister's illegitimate son, hoping that the boy's father, the handsome astronaut Law Kincaid, will return to help her care for him, but when Kincaid does show up, it is in response to some mysterious threatening blackmail letters. Reprint.

In *Tao: The Pathless Path*, Osho, one of the greatest spiritual teachers of the twentieth century, comments on five parables from the Leih Tzu, bringing a fresh and contemporary interpretation to the ancient wisdom of Tao. Leih Tzu was a well-known Taoist master in the fourth century B.C., and his sly critiques of a Confucius provide abundant opportunities for the reader to explore the contrasts between the rational and irrational, the male and female, the structured and the spontaneous. “Who Is Really Happy” uses the discovery of a human skull on the roadside to probe into the question of immortality and how misery arises out of the existence of the ego. “A Man Who Knows How to Console Himself” looks beneath the apparent cheerfulness of a wandering monk and asks if there is really a happiness that endures through life’s ups and downs. “No Regrets” is a parable about the difference between the knowledge that is gathered from the outside and the “knowing” that arises from within. “No Rest for the Living” uses a dialogue between a despondent seeker and his master to reveal the limits of philosophy and the crippling consequences of living for the sake of some future goal. “Best Be Still, Best Be Empty” discusses the difference between the path of the will, the *via affirmativa* of Christianity, Judaism, and Islam, versus the path of the mystic, the *via negativa* of Buddha and Lao Tzu. *Tao: The Pathless Path* also features a Q&A section that addresses how Taoist understanding applies to everyday life in concrete, practical terms. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of London as one of the “1000 Makers of the 20th Century” and by *Sunday Mid-Day* (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

The Most Dangerous man since Jesus Christ, the Sex Guru, the Ambassador from Hell, the Black Devil of Ashkhabad, The King of Depravity, and the Wickedest Man in the World. These were some of the labels given to three of the most notorious figures of 20th century spirituality: Osho (formerly known as

Bhagwan Shree Rajneesh), G.I. Gurdjieff, and Aleister Crowley. Beneath the controversies and scandals that swirled around all three the author argues that these men, egocentric tendencies notwithstanding, were brilliant thinkers and extraordinary masters of their craft, that of the science of inner transformation, and in particular the art of balancing the so called Left and Right Hand spiritual paths. These men were not humble sages. They were bona fide crazy wisdom masters and consistently went where angels fear to tread. They did not teach with the faint praise of new age fluff or the stuffy platitudes of religious sermons, but rather with a flaming sword, and were a genuine menace to all seekers who fear to face the abyss of their own egos.
