The perfect pocket-size travel companion: DK Eyewitness Travel Guide: Top 10 Prague.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them

how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

A wealth of entries representing the signs of American Sign Language, with illustrations, descriptions, cross-references and bibliography. "The most complete dictionary of sign language ever published." -- National Association of the Deaf

These twelve dazzling stories from Chimamanda Ngozi Adichie — the Orange Broadband Prize-winning author of *Half of a Yellow Sun* — are

her most intimate works to date. In these stories Adichie turns her penetrating eye to the ties that bind men and women, parents and children, Nigeria and the United States. In "A Private Experience," a medical student hides from a violent riot with a poor Muslim woman, and the young mother at the centre of "Imitation" finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Searing and profound, suffused with beauty, sorrow and longing, this collection is a resounding confirmation of Adichie's prodigious literary powers.

Easton's Bible Dictionary is a classic book of definitions which serves to explain and clarify the meaning of the names, places, and words found in the Bible. Many Christians and scholars who read the Bible often remain unawares of the meanings or significance of the Holy Book's vocabulary. Such words are often derived from Ancient Hebrew or other old scripts, which makes it even more difficult for readers who only speak English to understand. Location names, in the context of ancient geography, are likewise hard to scrutinize - yet Easton's Dictionary not only explains what these places are, but their size and overall impact across the entire Bible. First published in 1893, this dictionary uses the authoritative King James Bible as its source. As well as containing definitions and accounts of the many terms found throughout the Old and New Testaments, Easton's Bible Dictionary points out the significance of certain things and exactly where mentions of such phenomena appear in the Bible. The presence and significance of iron, for example, is noted in the Books of Genesis, Chronicles, Ezekiel, Deuteronomy, Isaiah, Job, Joshua, Kings and in the Psalms. Individuals in the Bible are also given biographical definitions. Through Easton's referencing of the names, we can discover the exact Bible passages where such figures are mentioned. Likewise we hear of terms relevant to the life of the ancient peoples; the term 'Levy' for instance is shown to equate to a form of involuntary recruitment which kings ordered. Words in frequent use today, such as 'Schism', are also shown to originate from the Bible. Other words we use today - such as 'Teeth', are shown to have been informal terms: 'cleanness of teeth' in Amos 4:6 denotes an outbreak of famine, for example. Many of the parables and tales of the Bible are retold in abbreviated form in Easton's Bible Dictionary. These retold anecdotes reference other relevant passages, further evidencing how the various portions of the Bible are interconnected and related to one another. Such a style also gives this unconventional dictionary a flowing quality, making it easier for the reader to enjoy large tracts of this text without pause. The ancient world of the Biblical canon is given life and color by Easton's descriptions. Primarily however, Easton's masterwork is designed for reference. Yet it not only defines the individual entries, but places these entries in their proper context throughout both the Old and New Testaments. Owing to this wealth of information, the reader may perceive that Easton's Dictionary is not merely a book of definitions, but an authoritative and significant work of classic Christian literature.

Nigerian video films--dramatic features shot on video and sold as cassettes--are being produced at the rate of nearly one a day, making them the major contemporary art form in Nigeria. The history of African film offers no precedent for such a huge, popularly based industry. The contributors to this volume, who include film and television directors, an anthropologist, and scholars of film studies and literature, take a variety of approaches to this flourishing popular art. Topics include aesthetic forms and distribution; the configurations of various ethnic audiences; the new media environment dominated by cassette technology; the video's materialism in a period of economic collapse; transformation of the traditional Yoruba traveling theater; individualism and the moral crisis in Igbo society; Hausa cultural values; the negotiation of gender roles, and the genre of Christian videos.

Offers entries for over six thousand idioms, including seven hundred new to this edition, and provides background information, additional cross-references, and national variants.

Oromo kasahorow. Learn to read Modern Oromo! The Oromo Learner's Dictionary is a beginner's dictionary for your multilingual child to develop their Oromo and English reading skills. Contains basic nouns, verbs and adjectives to aid fast comprehension of any Modern Oromo language book. Discover the joy of reading in Oromo and English together with your multilingual child. Suitable for children 8 to 12 years old. Language.

The fundamental outlines of the physical world, from its tiniest particles to massive galaxy clusters, have been apparent for decades. Does this mean physicists are about to tie it all up into a neat package? Not at all. Just when you think you're figuring it out, the universe begins to look its strangest. This eBook, "Ultimate Physics: From Quarks to the Cosmos," illustrates clearly how answers often lead to more questions and open up new paths to insight. We open with "The Higgs at Last," which looks behind the scenes of one of the most anticipated discoveries in physics and examines how this "Higgs-like" particle both confirmed and confounded expectations. In "The Inner Life of Quarks," author Don Lincoln discusses evidence that quarks and leptons may not be the smallest building blocks of matter. Section Two switches from the smallest to the largest of scales, and in "Origin of the Universe," Michael Turner analyzes a number of speculative scenarios about how it all began. Another two articles examine the mystery of dark energy and some doubts as to whether it exists at all. In the last section, we look at one of the most compelling problems in physics: how to tie together the very small and the very large – quantum mechanics and general relativity. In one article, Stephen Hawking and Leonard Mlodinow argue that a so-called "theory of everything" may be out of reach, and in another, David Deutsch and Artur Ekert question the view that quantum mechanics imposes limits on knowledge, arguing instead that the theory has an intricacy that allows for new, practical technologies, including powerful computers that can reach their true potential.

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and academics fourteen years to prepare, with the support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since 1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation.

An A-Z of 1,000 English grammatical terms, including current mainstream terminology, older, traditional and many new, controversial terms plus coverage of wider linguistics items. Concise definitions are accompanied by more detailed explanations with examples of usage and many quotations from grammar books. Now available in paperback this book should be found on the shelves of all those with an interest in the English language

"Based on the New Oxford dictionary of English"--Preface.

Nahuatl is the language used by the ancient Aztecs and the Nahua Indians of Central Mexico. This text introduces the language using an anthropological approach, teaching learners to understand Nahuatl according to its own distinctive grammar and to reject translationalist descriptions based on English or Spanish notions of grammar. In particular, the author emphasizes the nonexistence of words in Nahuatl

(except for the few so-called particles) and stresses the nuclear clause as the basis for Nahuatl linguistic organization.

This children dictionary book is a combination of two languages English and Farsi. Children dictionary like all other dictionaries is a book about words. It tells you what each word means and how each word spells. For each word in this book, a picture of the word exists. In addition, this book provides pronunciation of translated exact English word to Farsi word. Children dictionary book shows how to use each word in a sentence both in English and Farsi. At the end of this book, there is English alphabet and Farsi alphabet. However, that Farsi alphabet is like Arabic alphabet. (Farsi alphabet has four more letters of PEH, CH, ZH, GEH or . - - .) English language has twenty-six alphabets, and Farsi language has thirty-two alphabets. Writing direction in English is from left to right, but in Farsi is from right to left. This children dictionary book shows spelling of the English and Farsi word and sentence and pronunciation of translated English word to the Farsi word. Also, I wrote the vowels of pronunciation of Farsi word in English. This children dictionary book is in ABC order. You can find a word that begins with A before a word that begins with B and a word that begins with B before a word that begins with C. There is a box of alphabet (AZ), which you can find each word according to the letter they begin with. For example, you can find the word airplane in the A section of the dictionary. Children dictionary gives the (1) spelling of a word, (2) meaning of a word, (3) picture of a word, and (4) pronunciation of a translated word from English to Farsi. Sometimes one word has more than one meaning, and only you can find the meaning of the word based on a given sentence. For example, shir has three different meanings in Farsi (lion, milk, and faucet). Pictures and meanings of these words are shown in children dictionary book. Most pictures in this book are drawn by the author, others are used from first grade Farsi book in Iran, and some are from relatives who permitted their pictures to be used in the book. Also, there are few Internet pictures that are permitted to be used in this book.

This dictionary forms part of the project Indo-European Etymological Dictionary, which was initiated by Robert Beekes and Alexander Lubotsky in 1991. The aim of the project is to compile a new and comprehensive etymological dictionary of the inherited vocabulary attested in the Indo-European languages, replacing the now outdated dictionary of Pokorny (1959).

A critically acclaimed modern translation of the Bible into English, based on the latest advances in biblical scholarship, features a concise two-column format for easier reading, a low price, and a reader-friendly design.

The ever popular and thoroughly entertaining Aussie Slang Dictionary is back to help you decipher and speak the true local language. Full of dazzling definitions from true-blue Aussies, you'll never be lost for words with this collection of colourful sayings. "Hausa students and Hausaphiles now have an English-Hausa dictionary that is readily available, attractively produced and quite attractively priced, and more comprehensive than any English-based dictionary for an African language...A magnificent accomplishment that promises to serve a wide variety of purposes. It establishes both precedent and an excellent model that one hopes will be followed for other less commonly taught languages." -William R. Leben, Modern Language Journal This is a modern comprehensive dictionary designed specifically for English-speaking users who wish to acquire communicative fluency in Hausa, West Africa's most important and most widely spoken language. The dictionary contains a broad selection of words that the average person is likely to need in speaking and writing Hausa for everyday use. Included are common technical terms drawn from a range of fields, as well as generally accepted borrowings from English and French. The entries are divided into meaning groups and grammatical categories, marked clearly by semantic and usage indicators to help the user distinguish between the various meanings. Numerous phrases, sentences, and common idiomatic expressions illustrate conversational usage and provide culturally informative contexts. The easy to read typography marks lexical and grammatical distinctions of tone and vowel length for every Hausa word in the dictionary. The introduction provides concise information on various points of Hausa grammar. Useful appendixes include pronoun paradigms, pronunciation guides to Hausa place names and personal names, an index of Nigerian and international organizations, and a description of the currencies of Nigeria and Niger. An English-Hausa Dictionary will be an invaluable guide for students, research scholars, translators, and people with educational business, or governmental ties in West Africa who are interested in learning the language and culture of one of that area's most dynamic societies. It will be equally useful to non-Hausa speaking Africans who want to learn Hausa. In general, the innovative design features of this book will set a new standard for pedagogically oriented reference works of African languages. "A valuable resource for scholars and students of linguistic and African languages and literature...It is highly recommended for use in academic and research libraries. Newman and her editorial staff deserve to be congratulated." -Felix Eme Unaeze, American Reference Books Annual

CTS's classic prayer book in a beautiful and durable binding (includes the Mass).
