This is the book that I wrote about my Tarot deck. In it, I explore the real, factual history of the Tarot (No one knows, and does it really make any difference?) as well as a chapter about the theories of the history of the Tarot in general, and a recounting of the history of the Robin Wood Tarot. There is a description of the symbolism that is common to most decks, along with a listing of the symbols that are used in the Robin Wood Tarot in particular. The bulk of the book is a description of each card; including a verbal key to help the Reader remember the meaning, a synopsis of what the card might mean in a reading, and a complete description of what is on the card and why I put it there. This is followed by a short discussion of how the Tarot works, how to begin to read (including a section on Grounding and Centering, ) and an exploration of the Ethics of reading the Tarot. Finally, there is a short section about spreads. (It's short, because the book quickly became much longer than I expected!) And, in the very back, there are a few appendices which go into more detail about some of the stories and legends that are mentioned in the book, as well as a section covering the Rules of Tarocchi!

Publisher Review: When I was in high school, I was fortunate enough to take a trip through Europe. I desperately wanted to see some of the famous sites. I ended up disappointed with many of them. The Leaning Tower of Pisa was just an old building falling on its side. The Eiffel Tower was an enormous rusty hunk of metal. The Mona Lisa was dark, dingy, and criss-crossed with hairline cracks. The ceiling of the Sistine Chapel was likewise dark and dismal with muted colors (it's been cleaned since I was there). The truth is that great works of art and architecture age and need to be cared for. Most art does not receive the appropriate care. Perhaps
