Music Education for Children with Autism Spectrum Disorder: A Resource for Teachers provides foundational information about autism spectrum disorder and strategies for engaging students with ASD in music-based activities such as singing, listening, moving, and playing instruments. This practical resource supplies invaluable frameworks for teachers who work with early-years students. The book first provides readers with background information about ASD and how students with this condition manage their behaviors in school environments. It then progresses to provide teachers with information about planning music-based instruction for students on the spectrum. In the book's midsection, readers learn how students with ASD perceive, remember, and articulate pitch perception. Following chapters present a series of practical ideas for engaging students with ASD through songs and singing and concentrate on skills in music listening, most notably on activities that motivate students with ASD to interact with others through joint attention. Challenges that individuals with ASD experience in motor processing are examined, including difficulties with gait and coordination, motor planning, object control, and imitation. This is followed by practical teaching suggestions for engaging students with activities in which movement is mediated through sound (e.g., drum beats) and music. Closing chapters introduce non-pitched percussion instruments along with activities in which children engage in multisensory experiences by playing instruments--musical activities described in preceding chapters are combined with stories and drama to create musical narratives. Music Education for Children with Autism Spectrum Disorder is accompanied by a companion website that supplies helpful supplemental materials including audio of songs notated in the book for easy access.

In 1960, acclaimed American author John Steinbeck (Grapes of Wrath, Of Mice and Men) embarked on a three-month road trip around the United States with his wife's gentleman poodle, Charley, in tow. Steinbeck's aim was to rediscover the country he had last roamed as a young man. Ultimately, the journey would be as much about self-discovery. The resulting book, Travels with Charley, was a bestseller and is now counted among the classic American road novels. In 2003, writer Mike Lauterborn set off by van to follow Steinbeck's path, to both learn about the author and see how America and Americans had changed in the intervening forty-plus years. Along the way, he hoped to find some of the people and places Steinbeck had encountered while taking in new sights and experiences. Travels with Charley aided Lauterborn during the planning stages of his own trip and prepared him for hardships Steinbeck had also faced, including vehicle troubles, adverse weather, solitude, and health woes. The author's words would inspire, console, and haunt the young writer. Ultimately, the trail would lead Lauterborn to some of America's most enduring landmarks, from broad rivers, rugged coastlines, and azure-blue volcanic lakes to barren deserts, quaint small towns, and sprawling cities. He met people from all walks of life and was struck by their common resilience, work ethic, and patriotism. In the end, however, he was most impressed by the formidable scope of the journey the ailing Steinbeck had undertaken. This book is a tribute to the author's tireless pursuit of the noble quest.

Modern Jazz Trumpet Legends By: Larry Kemp Modern Jazz Trumpet Legends is an examination of the lives and contributions of jazz trumpeters born between 1925 and 1940. Included are Miles Davis, Maynard Ferguson, Doc Severinsen, Chet Baker, and Clifford Brown along with scores of other men and women who created jazz with a trumpet. This is an essential guide for the student of jazz, those interested in history, and those who just like to read entertaining true stories about the most colorful people. The Jazz Trumpet Legends three volume series is the most comprehensive book on the subject. In the series, 867 trumpeters are discussed. The second volume covers the trumpeters in the center of the history of jazz. There are the sad stories of those who died too young (Clifford Brown at 25, Ray Wetzel at 27 from automobile accidents; Joe Gordon at 35 from a house fire; Booker Little at 23 from uremia), balanced by the positive stories of those who accomplished much with their lives (Miles Davis invented cool jazz and fusion; Maynard Ferguson took the trumpet to new heights; Lionel Ferbos performed regularly for a couple of years after his hundredth birthday; Clora Bryant and Betty O'Hara showed that women could get the job done on the trumpet). Modern Jazz Trumpet Legends contains two appendices that apply to trumpeters in all three volumes: a yearly calendar showing, for each day of the year, the trumpeters born on that date; and a geographical listing of the states and countries showing, for each place, the trumpeters born there. Early Jazz Trumpet Legends is the first of three volumes organized chronologically by date of birth. The second volume, Modern Jazz Trumpet Legends covers those born between 1925 and 1940 and the third volume, Current Jazz Trumpet Legends, covers those born after 1940.

This collection records epiphanies, instances of poetry, moments of “extraordinary ordinary” insights that have happened to me in the course of living my life as usual over the past year —the events that occurred in it concentrated and highlighted even more by the Coronavirus pandemic. These are moments when the mind and spirit abstracts from everyday objects, situations and chains of events seminal and universal truths about our existence as sentient creatures evolved to awareness over the process of thirteen billion years — moments when we are dumbstruck with awe, or are startled into wonder, joy and compassion —moments when we see our breathless possibilities and our daunting limitations. I invite you to share them with me. Tells the stories of Los Angeles jazz performers, including Art Pepper, the Gerry Mulligan Quartet, and Ornette Coleman

Double Helix is a new genetic literary hybrid. Using the structure of DNA (which has its own language using paired molecules) as a model, Stephen Cain and Jay MillAr's new book employs a sequence of speak and respond pieces to read and write their way through the alphabet and discuss everything from literature to the weather. Living in different cities for a year, the two authors kept their ongoing conversations about poetics, relationships, and culture in the early 21st century alive by writing a collaborative project over email, based on a simple alphabetic constraint. The result is Double Helix, a series of 52 micro-fictions, in which each writer meditates on a word beginning with a set letter of the alphabet. Molecular strands of concepts, arguments, and narratives twist about each other, yet also match, much like the double helix of human DNA. The final text mixes two lives, two writing styles, and two consciousnesses, that come to resemble a third mind- an act of literary meme-splicing.

The 101 original duets of "Celebrations" progress from simple whole notes to expert level duets with a steady graduation of difficulty between the two. The unexpected twists and turns make the book fun to work through, and the diverse styles (including baroque, classical, salsa, jazz, guapango, and African 12-8) keep it interesting. While the music is highly entertaining and enjoyable to play, this 165-page book is about more than just entertainment value. Each of the 101 duets is composed around a particular skill. By the time a musician has mastered a piece, he or she will also have acquired or honed a valuable skill. No other trumpet duet book offers so much value for money: rich entertainment subtly embedded with invaluable lessons and challenges designed to promote musical growth. If you are looking for a duet book that integrates variety, originality, and challenges for every skill level, then "Celebrations" should be your first choice. Whether you are a music teacher looking to add some excitement to your lessons by including duets suitable for your students' skill level, or a professional wanting to hone particular skills, or a beginner looking for a way to grow as a musician by integrating fun-to-play duets into your practice or jam sessions, "Celebrations" will meet your need at the level required.

The Comic Book Bandit is a bright, healthy, mischievous child named Jay. Mentored by his brilliant older brother, Ross, the bandit pulls off his first comic book heist at the age of four. As events unfold, he gradually finds himself to be alone out in a world where the only significant authority over his behavior turns out to be him and his fledgling and relatively ignorant conscience. Being an unattended child may be scary, but it is also immensely exciting. There is a rush that comes with boundless liberty. Not entirely free, but with stolen moments of freedom to explore life on his own, out and about in the pulsating city of Chicago, where the choices were breathtaking, our hero is captured by the undeniable realization, “I can do whatever I want so long as I don’t get caught.” The stories take place after the Second World War. Yes, the bandit faces the obstacles of grown-ups but cleverly discovers the slippery power of the believable lie. He creates a secret life of his own and shares an acceptable version with those he must account to: his mother, his father, his brother, his teachers, and his friends. Getting away with stuff starts to become second nature, at least until and when he creates a lie so big, with burden so weighty, its effects are at times overwhelming. The

culmination of his struggles with the Great Bar Mitzvah Caper will have the reader riveted to each and every page. How could he? How does he? Will he or won't he? Those are the questions. Come along for the ride. I promise you a child whose ingenious lies make him unlike any child you may have encountered. And beyond all that, he is a great little kid. 1

On a sunny morning in 1927, George Lichter, barely six years old, donned his new skates and rolled to the beach at Gravesend Bay where he witnessed a spectacle that would determine the course of his life. As he watched an airplane take off from the water and fly over the city, he decided he would one day become a pilot. George held onto this dream throughout his childhood in Brooklyn, wild adventures as a trumpet player in the Borscht belt and during his escapades at college in, of all places, the Deep South. A week before his twentieth birthday in 1941, immediately following the bombing of Pearl Harbor, George rode the subway to the nearest recruiting center and joined the United States Air Force. By the end of WWII, having flown eighty-eight combat missions over Nazi-occupied Europe, he had become a decorated fighter pilot. Two years later, in 1947, retired from the Air Force, he learned that the new nation of Israel was about to be attacked by its Arab neighbors. Though George felt the Jewish State had no chance of survival against such insurmountable odds, he knew he had to help. He signed up as a Machalnik (volunteer) and was assigned to an air base in Czechoslovakia where he helped train Israel's first fighter pilots. Within a year they owned the skies over their new nation.

NEW YORK TIMES BESTSELLER • An unprecedented look into the personal and creative life of the visionary auteur David Lynch, through his own words and those of his closest colleagues, friends, and family “Insightful . . . an impressively industrious and comprehensive account of Lynch’s career.”—The New York Times Book Review In this unique hybrid of biography and memoir, David Lynch opens up for the first time about a life lived in pursuit of his singular vision, and the many heartaches and struggles he’s faced to bring his unorthodox projects to fruition. Lynch’s lyrical, intimate, and unfiltered personal reflections riff off biographical sections written by close collaborator Kristine McKenna and based on more than one hundred new interviews with surprisingly candid ex-wives, family members, actors, agents, musicians, and colleagues in various fields who all have their own takes on what happened. But Room to Dream is more enchanting or appealing than those classics. . . . You will not read this story of Dave and Nick anywhere else. Ann Treneman, the sketchwriter for The Times, chronicles all the highlights (and even more of the lowlights)

of their extraordinary relationship in a love story that not even Mills & Boon could imagine. Two posh boys who found each other, a bromance to remember, full of love, hate, fratricide, war, riots, bad hair and even worse speeches, not to mention that sexy AV referendum. Through her perceptive sketches, Ann Treneman tells the story of how they dated, flirted with others (including the brooding hulkish Gordon), but eventually came together in a sun-kissed wedding in the Downing Street rose garden. She reveals how Nick struggled to be the perfect political wife while starting a new sub-career as a national hate figure, and chronicles Dave's long and bruising battle with arrogance. She tells the shocking story of their arch rival, the man who killed his brother and got away with it. The nightmare of the grandparents, the mad aunts and uncles, the ambitious kids and the economy that simply would not do as it was told. This is the tale of two men and a screaming baby of a coalition, trying to stay true to each other when surrounded by political mayhem and madness. Laugh? Or cry (with laughter)? How about both?

During real estate boom times, risks are overcome by ever improving market conditions. When the boom ends, as so often happens, lenders can get stuck with half finished projects and no ability to complete them. Lenders then sell the projects at a loss or hire someone like Marcus Flint to “work out” their problems, which is easier said than done. Flint is a recently diagnosed diabetic when he dies suddenly from a supposed seizure at the grand opening of the Apogee development in La Jolla—one of those “work out” projects. Bishop Bone is asked to write Flint’s memoir, but he soon comes to believe Flint’s death was actually murder. This realization could get Bone killed, as powerful people do not want the truth revealed. Details of Flint’s memoir have the power to expose those involved in the Apogee development and, possibly, in Flint’s death. To stay alive, Bone has to continue his investigation while ducking the project’s developer, terminated employees, Flint’s brother-in-law, jilted husbands, and yes, even Flint’s widow. Who knew real estate development was so dangerous?

The development of jazz and swing in the African-American community in Los Angeles in the years before the second World War received a boost from the arrival of a significant numbers of musicians from Chicago and the southwestern states. In *Swingin’ on Central: African-American Jazz in Los Angeles*, a new study of that vibrant jazz community, music historian and jazz journalist Peter Vacher traveled between Los Angeles and London over several years in order to track down key figures and interview them for this oral history of one of the most swinging jazz scenes in the United States. Vacher recreates the energy and vibrancy of the Central Avenue scene through first-hand accounts from such West Coast notables as trumpeters Andy Blakeney , George

Orendorff, and McLure “Red Mack” Morris; pianists Betty Hall Jones, Chester Lane, and Gideon Honore, saxophonists Chuck Thomas, Jack McVea, and Caughey Roberts Jr; drummers Jesse Sailes, Red Minor Robinson, and Nathaniel “Monk” McFay; and others. Throughout, readers learn the story behind the formative years of these musicians, most of whom have never been interviewed until now. While not exactly headliners—nor heavily recorded—this community of jazz musicians was among the most talented in pre-war America. Arriving in Los Angeles at a time when black Americans faced restrictions on where they could live and work, jazz artists of color commonly found themselves limited to the Central Avenue area. This scene, supplemented by road travel, constituted their daily bread as players—with none of them making it to New York. Through their own words, Vacher tells their story in Los Angeles, offering along the way a close look at the role the black musicians union played in their lives while also taking on jazz historiography’s comparative neglect of these West Coast players. Music historians with a particular interest in pre-bop jazz in California will find much new material here as Vacher paints a world of luxurious white nightclubs with black bands, ghetto clubs and after-hours joints, a world within a world that resulted from the migration of black musicians to the West Coast.

A wrenching account of one family's five-year battle with what proved to be terminal liver disease, this story explores all aspects of the difficulty in raising a family under such conditions. Written from the point of view of the primary caregiver, the story reveals much about the possible challenges facing the 17,000 families now waiting for a liver transplant in the USA. Many more face other debilitating diseases or the ravages of age. Despite his scientific training to try to understand what is happening, the author is crushed by the medical bureaucracy, and the wild ups and downs of the course of the disease. Having adopted their children, the author struggles with his fundamental values and his conflicting responsibilities to the children and to his ailing wife. This book should help friends and family better understand what a stoic experience the caregiver of one seriously ill may be going through. More importantly, it can show such a lonely individual that what they are going through is not unique, and that they need not be alone. As events proceed through hospice, funeral, and grief, the author looks back on their time together and reflects on the nature of life and love.

"There's more in the dirt than just dinos..." Young New York veterinary student Geoffery McKenna travels west into a potentially fatal game of hide 'n' seek involving the recently discovered fossil of what may indeed have been the legendary unicorn; a creature which existed just before the dawn of man and whose horn is reputed to cure illness, banish poisons, and separate the wicked from the innocent. No one is safe from corruption in this twisting tale where deception may lie in the alleged justice of a band of wronged Native Americans, or as easily in the hands of a four year old child. Follow Geoff on the trail of thieves and would-be murderers as his dreams are ripped out from under him while he digs for answers and the way back home in a 35 million year old mystery... In August of 2007, I started writing a weekly column for my hometown newspaper, the Northland Press. This book is a collection of those essays published over the years. They depict everything from life itself to my roots; nature, pet stories, holidays of the year, fishing, hunting, sports, eulogies, and memories of days gone by. I hope you enjoy reading them as much as I enjoyed writing them. Mike Holst

A provocative and often hilarious look at teaching -- a beautifully written book that will resonate with anyone who's been a teacher or been taught in America. Gerald Newman, acclaimed author of *The Rise of English Nationalism* and holder of the Kent State University Distinguished Teaching Award, surveys his youth, education, students, and career in a memoir sparkling with humor and full of arresting portrayals of school life from both sides of the instructor's desk. Sketching his background and confessing his youthful follies and pranks, Newman arrives at his maverick schooldays, depicting a jolly parade of familiar types -- teachers, principals, geeks and Greeks, zany profs and silver-tongued "grandees of the lecture hall." Tracing his progress through the University of Washington, then Harvard, then his thirty-year career at Kent State after the infamous May 4th shooting (1970), he addresses the teacher's main mission to "Fix Stupid," amusingly revisiting battles with wayward students, John Birchers, Henry Kissinger, and other Harvard profs and sundry academics, administrators, and "woke" enthusiasts at Kent State. A historian, he shows his own shaping by great outside forces -- World War II, the Cold War, Vietnam, American political controversy, trendy intellectual fashions. He includes valuable teaching tips, laugh-out-loud accounts of educational travels, and biting commentary on the current political scene. This is a big book, containing much more than one man's life story, written in a light-hearted and entertaining spirit by a very keen observer.

The complete Diamond Tree, (episodes 1-3). In a world within a world, there exists a small kingdom called Flairyland. A realm born out of a love for wide-flaired jeans like the hippies used to wear. Flairies love those jeans. Years ago the flairies adored everything about the hippies. They loved the flowered headbands, cheesecloth smock-tops, tie-dye T-shirts and daisy chains.

Moreover, the very essence of hippy lifestyle was peace and harmony. That's what the flairies wanted the most. A lengthy period of calm and peace endured, until the king's reign came to its end. The younger generation was then due its turn and the king's daughter selected as the next queen. No sooner is Chubina crowned, than her land is thrown into danger. Her first task as ruler therefore, must be to save Flairyland.
