This is a short book that answers the burning question of our time: "How do I build confidence?" I don't like giving out purely tactical ideas like "do this" or "do that" because confidence is like work experience: people only hire you if you have it, but to get it you need people to hire you. I refused to throw more garbage into that well of circular thinking. What I give you instead is a way for you to change your mind into a confidence building machine.

"The ultimate all-in-one guide to becoming a great leader."—Daniel Pink From the creator and host of The Learning Leader Show, "the most dynamic leadership podcast out there" (Forbes) that will "help you lead smarter" (Inc.), comes an essential tactical guide for newly promoted managers. A biologist slowly becomes convinced that his internal musings about the nature of life are something more - something disturbing. Was it possible that he was actually having an ongoing conversation with Earth, herself?

The heart of the book is a long chapter and appendix expounding the brilliance of Aristotle on language, the soul, and mind. This updating of him, much broader than the conventional, stereotyped, view, can be incorporated into modern science." "The Death and Life of Philosophy not only presents the great thinkers of the past in a new light, but also satirizes the philosophy professors of today, putting their work and even their aims into perspective in a readable and engaging manner."--BOOK JACKET.

Integrating the discipline of martial arts and Zen wisdom, the author utilizes special visualization techniques, mind-body exercises, and inspiration to help individuals find the path to mastery

The British author embarks on an awe-inspiring trek through 1930s West Africa in "one of the best travel books [of the twentieth] century" (The Independent). When Graham Greene left Liverpool in 1935 for what was then an Africa unmarked by colonization, it was to leave the known transgressions of his own civilization behind for those unknown. First by cargo ship, then by train and truck through Sierra Leone, and finally on foot, Greene embarked on a dangerous and unpredictable 350-mile, four-week trek through Liberia with his cousin, and a handful of servants and bearers, into a world where few had ever seen a white man. For Greene, this odyssey became as much a trip into the primitive interiors of the writer himself as it was a physical journey into a land foreign to his experience. "No one who reads this book will question the value of Greene's experiment, or emerge unshaken by the penetration, the richness, the integrity of this moving record." —The Guardian

The final book in the New England-set trilogy that began with *Dance Upon the Air and Heaven and Earth*.

This concise version of the business classic *Mastery* provides a shortcut to Greene's powerful new tools for achieving greatness. Around the globe, people are facing the same problem - that we are born as individuals but are forced to conform to the rules of society if we want to succeed. To see our uniqueness expressed in our achievements, we must first learn the rules - and then change them completely. Charles Darwin began as an underachieving schoolboy, Leonardo da Vinci as an illegitimate outcast. The secret of their eventual greatness lies in a

'rigorous apprenticeship': they learnt to master the 'hidden codes' which determine ultimate success or failure. Then, they rewrote the rules as a reflection of their own individuality. Drawing on interviews with world leaders, this book builds on the strategies outlined in *The 48 Laws of Power* to provide a practical guide to greatness - and learn how to start living by your own rules.

#1 New York Times bestselling author Nora Roberts' Circle Trilogy begins with an epic tale that breaks down the boundaries between reality and the otherworldly, while forging together the passions of the men and women caught in a battle for the fate of humanity... In the last days of high summer, with lightning striking blue in a black sky, the sorcerer stood on a high cliff overlooking the raging sea... Belting out his grief into the storm, Hoyt Mac Cionaoith rails against the evil that has torn his twin brother from their family's embrace. Her name is Lilith. Existing for over a thousand years, she has lured countless men to an immortal doom with her soul-stealing kiss. But now, this woman known as vampire will stop at nothing until she rules this world—and those beyond it... Hoyt is no match for the dark siren. But his powers come from the goddess Morrigan, and it is through her that he will get his chance at vengeance. At Morrigan's charge, he must gather five others to form a ring of power strong enough to overcome Lilith. A circle of six: himself, the witch, the warrior, the scholar, the one of many forms, and the one he's lost. And it is in this circle, hundreds of years in the future, where Hoyt will learn how strong his spirit—and his heart—have become... Don't miss the other books in the Circle Trilogy *Dance of the Gods* *Valley of Silence*

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

From composer, musician, philanthropist--and son of Warren Buffett--comes a warm, wise, and inspirational book that expounds on the strong set of values given to him by his trusting and broadminded mother, his industrious and talented father, and the many life teachers he has met along the way.

You can serve God and his people for a lifetime and do it with passion and joy. You do not have to become another casualty in the growing number of leaders who have compromised their integrity, character, and ministry because they failed to lead an examined and accountable life. The road forward is clearly marked. Leaders must make a decision to humbly and consistently examine their inner lives and identify areas of needed change and growth. Also, wise leaders commit to listen to the voices of those who will love them enough to speak the truth and point out problems and potential pitfalls. Kevin Harney writes, "The vision of this book is to assist leaders as they discover the health, wisdom, and joy of living an examined life. It is also to give practical tools for self-examination." Sharing stories and wisdom from his years in ministry, Harney shows you how to maintain the most powerful tool in your leadership toolbox: YOU. Your heart, so you can love well. Your mind, so you can continue to learn and grow. Your ears, your eyes, your mouth ... consider this your essential guide to conducting your own complete interior health exam, so you can spot and fix any problems, preserve the things that matter most, and grow as a source of vision, strength, and hope to others.

Fathers' struggle to create a new nation. Shows how figures such as Thomas Paine, James Madison, and Benjamin Franklin faced challenges and dissension in their own ranks with a vision from which they would not stray. Includes checklists of organizational, management, strategic, and leadership lessons learned from the leaders of the American Revolution. Annotation c. by Book News, Inc., Portland, Or. In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

Instant #1 New York Times Bestseller & Wall Street Journal Bestseller In *The Obstacle Is the Way* and *Ego Is the Enemy*, bestselling author Ryan Holiday made ancient wisdom wildly popular with a new generation of leaders in sports, politics, and technology. In his new book, *Stillness Is the Key*, Holiday draws on timeless Stoic and Buddhist philosophy to show why slowing down is the secret weapon for those charging ahead. All great leaders, thinkers, artists, athletes, and visionaries share one indelible quality. It enables them to conquer their tempers. To avoid distraction and discover great insights. To achieve happiness and do the right thing. Ryan Holiday calls it stillness--to be steady while the world spins around you. In this book, he outlines a path for achieving this ancient, but urgently necessary way of living. Drawing on a wide range of history's greatest thinkers, from Confucius to Seneca, Marcus Aurelius to Thich Nhat Hanh, John Stuart Mill to Nietzsche, he argues that stillness is not mere inactivity, but the doorway to self-mastery, discipline, and focus. Holiday also examines figures who exemplified the power of stillness: baseball player Sadaharu Oh, whose study of Zen made him the greatest home run hitter of all time; Winston Churchill, who in balancing his busy public life with time spent laying bricks and painting at his Chartwell estate managed to save the world from annihilation in the process; Fred Rogers, who taught generations of children to see what was invisible to the eye; Anne Frank, whose journaling and love of nature guided her through unimaginable adversity. More than ever, people are overwhelmed. They face obstacles and egos and competition. *Stillness Is the Key* offers a simple but inspiring antidote to the stress of 24/7 news and social media. The stillness that we all seek is the path to meaning, contentment, and excellence in a world that needs more of it than ever.
