Dr. McGavran wrote 'Bridges of God' in the hope that it will shed light on the process of how peoples become Christian, and help direct the attention of those who love the Lord to the highways of the Spirit along which His redemptive Church can advance.

There has been substantial church growth in Britain between 1980 and 2010. This is the controversial conclusion from the international team of scholars, who have drawn on interdisciplinary studies and the latest research from across the UK. Such church growth is seen to be on a large scale, is multi-ethnic and can be found across a wide range of social and geographical contexts. It is happening inside mainline denominations but especially in specific regions such as London, in newer churches and amongst ethnic minorities. Church Growth in Britain provides a forceful critique of the notion of secularisation which dominates much of academia and the media - and which conditions the thinking of many churches and church leaders. This book demonstrates that, whilst decline is happening in some parts of the church, this needs to be balanced by recognition of the vitality of large swathes of the Christian church in Britain. Rebalancing the debate in this way requires wholesale change in our understanding of contemporary British Christianity.

Leading church growth expert Ed Stetzer extends his missional writings with Comeback Churches, studying 300 once-declining congregations to determine what it takes to revive a dying body of believers.

Our entire understanding of funding and sustainability must change. Tithes and offerings alone are no longer enough to provide for the needs of the local church, enable pastors to pursue opportunities, or sustain long-term ministry impact. Growing financial burdens on the middle class, marginal increases in contributions to religious organizations, shifting generational attitudes toward giving, and changing demographics are having a negative impact on church budgets. Given that someday local churches may be required to pay taxes on the property they own and/or lose the benefit of soliciting tax-deductible gifts, the time to pivot is now. What's needed is disruptive innovation in church economics. For churches to not only survive but thrive in the future, leaders must learn to leverage assets, bless the community, empower entrepreneurs, and create multiple streams of income to effectively fund mission. You'll learn why you should and how to do so in The Coming Revolution in Church Economics. Who leads a church? Why is this important to God? God cares about his glory, and he means to display his glory through the church. For this very end, God has established elders and deacons, members, and congregational authority. This primer on church structure connects the different offices of the church to one another and to the glory of God.

During the past twenty years the phenomenon of church growth--especially as it has been known under the dynamic leadership of Donald McGavran and the School of World Mission, Fuller Theological Seminary--has resulted in an impressive array of books, articles, reports, and theses. While freely acknowledging their debut to the church growth school, the contributors to this volume wish to explore further the premises, principles, and goals of church growth. Firmly convinced that church growth is more than empirical data and effective methods, and that there is nothing approaching a complete book of church growth, they aim not simply to offer definitive answers but rather to open up fresh lines of inquiry--historical, experiential, methodological, and theological. Thus, while interacting with previous studies, the authors view their work as a constructive contribution to the search for a more adequate understanding of church growth patterns. Contributors to this volume include Alfred C. Krass, Harvie M. Conn, Orlando E. Costas, John H. Yoder, Harry R. Boer, and C. RenŽ Padilla.

A careful and informed assessment of the "emerging church" by a respected author and scholar The "emerging church" movement has generated a lot of excitement and exerts an astonishingly broad influence. Is it the wave of the future or a passing fancy? Who are the leaders and what are they saying? The time has come for a mature assessment. D. A. Carson not only gives those who may be unfamiliar with it a perceptive introduction to the emerging church movement, but also includes a skillful assessment of its theological views. Carson addresses some troubling weaknesses of the movement frankly and thoughtfully, while at the same time recognizing that it has important things to say to the rest of Christianity. The author strives to provide a perspective that is both honest and fair. Anyone interested in the future of the church in a rapidly changing world will find this an informative and stimulating read. D. A. Carson (Ph.D., University of Cambridge) is research professor of New Testament at Trinity Evangelical Divinity School in Deerfield, Illinois. He is the author of over 45 books, including the Gold Medallion Award-winning book *The Gagging of God*, and is general editor of *Telling the Truth and Worship by the Book*. He has served as a pastor and is an active guest lecturer in church and academic settings around the world.

There is no shortage of books these days on new ways of "doing church." New church models have been both warmly embraced and roundly criticized. What are church leaders and others concerned about the state of the church to make of all this? Does the Bible prescribe a standard model for doing church? Or is there freedom within certain guidelines? In *A New Kind of Church*, respected church consultant Aubrey Malphurs addresses these important questions and suggests that there is room for new ways of doing ministry while being true to Scripture. In the process, he offers a theological and interpretive framework for evaluating any church model, new or old. He also offers suggestions for implementing change in the local church.

Bishop Hilliard pinpoints the signs leaders should look for in knowing their churches are growing in a healthy manner, and includes a discussion of satellite churches, extension churches, and new church plants as signs of healthy growth. Dr. Glenn W. Mollette has been writing most of his life. He is the author of numerous books. Church Growth 101 A Church Growth Guidebook for Ministers and Laity is based on his thirty-five plus years of pastoral ministries. All the churches Dr. Mollette served grew in attendance, mission giving and effective ministries. This is a must read for every pastor, church staff worker, and church member. In this book Dr. Mollette shares practical and simple insights that will help your church grow. He is a graduate of Georgetown College, The Southern Baptist Theological Seminary and Lexington Theological Seminary. He has served as President of the Kentucky Baptist Pastor's Conference and President of the Kentucky Baptist Convention. Today he is the President of Newburgh Theological Seminary, Newburgh, Indiana and works with ministers in all fifty states and over forty countries.

Instead of relying on today's models of successful churches, follow the biblical pattern for building a vital and solid church on eternal foundations.

This second book of the Pentecostal Church Growth series attempts to determine the reasons for the explosive growth of the early church in the book of Acts. Gaining form and momentum over the second half of the 20th century, the Church Growth movement has become an enormous shaping force on the Western church today. You may love it, you may hate it, but you can't deny its impact. But what exactly is Church Growth? In what ways has the movement actually brought growth to the church, and how effective has it been in doing so? What are its strengths and weaknesses? This timely book addresses such questions. After providing a richly informative history and overview, it explores—in a first-ever roundtable of their leading voices—five main perspectives, both pro and con, on the classic Church Growth movement:• Effective Evangelism View (Elmer Towns)• Gospel in Our Culture View (Craig Van Gelder)• Centrist View (Charles Van Engen)• Reformist View (Gailyn Van Rheen)• Renewal View (Howard Snyder)As in other Counterpoints books, each view is first presented by its proponent, then critiqued by his co-contributors. The book concludes with reflections by three seasoned pastors who have grappled with the practical implications of Church Growth. The interactive and fair-minded nature of the Counterpoints format allows the reader to consider the strengths and weaknesses of each view and draw informed, personal conclusions. The Counterpoints series provides a forum for comparison and critique of different views on issues important to Christians. Counterpoints books address two categories: Church Life and Exploring Theology. Complete your library with other books in the Counterpoints series.

Pastor Bob Russell shares the ten principles upon which Southeast Christian Church, one of the largest and fastest growing churches in America, was founded. He shares not only the story of one of the most amazing churches in America, but also what your church can become if you follow the principles and allow God to build your church. Can the church truly be the "city on a hill that cannot be hidden" that Jesus talked about in the Sermon on the Mount? Can it grow large enough to attract throngs of seekers and yet be loving enough to care for each individual that comes? Bob Russell, pastor of Southeast Christian Church—one of the largest and fastest growing churches in America—says that it most certainly can. But it can only be done when we are submissive to God's will and allow Him to build that church. In the pages of this far-sighted, uncompromising book, Bob Russell and his son Rusty share the ten principles upon which this remarkable church was founded. Throughout the book, you will see God's mighty power at work in a church that began in 1962 with only 50 members and has now grown to over 14,000 and has become a bustling "city on a hill" whose beaming faith powerfully impacts its community and the world. This book shares not only the story of one of the most amazing churches in America but also the story of what your church can become as you follow these ten time-tested principles and allow God to build your church.

Concern about church growth and decline is widespread and contentious, yet theological reflection on church growth is scarce. Reflecting on the Bible, dogmatic theology and church history, this book situates the numerical growth of the church within wider Christian theology. Leading international scholars, including Alister McGrath, Benedicta Ward and C. Kavin Rowe, contribute a spectrum of voices from evangelical, charismatic, liberal and anglo-catholic perspectives. All contributors unite around the importance of seeking church growth, provided this is situated within a nuanced theological framework. This book offers a critique of 'decline theology', which has been influential amongst theologians and churches, and which assumes church growth is impossible and/or unnecessary. The contributors provide rich resources from scripture, doctrine and tradition, to underpin action to promote church growth and to stimulate further theological reflection on the subject. The Archbishop of Canterbury provides the Foreword.

All local churches experience a predictable life cycle of growth and decline. But if a church is on a downward trend, how can it turn around? *Taking Your Church to the Next Level* explains the impact of age and size on churches and outlines the improvements that must be made at each point for a church to remain fruitful and faithful to its mission. McIntosh deftly describes the cycles of fruitfulness and the importance of continual improvement to diminish destructive forces that keep a congregation from its mission. the church and desire to see it experience biblical growth will benefit from the sage wisdom offered in these pages.

The author of this work, Isaac Ojutalayo, has done his research on the subject of leadership and church growth. The contents of this book are the written evidence. The eleven chapters embrace some of the most important and necessary things that leaders should learn and practise, whether they are ordained ministers or lay workers in the church. The principles he has written about can also be applied in circular organisation. This book reveals Dr Isaac Ojutalayo's academic achievement and experimental development. He has divided each chapter into readable sections that can be easily discussed and studied. The book is suitable for individuals and groups who are called by God to lead His people. Dr Isaac Ojutalayo is passionate that leaders be men and women of excellence, whether the congregation they lead is large or small. He stresses communication, generosity, honesty, and continuing education with the highest level of trust, all essential elements of church growth. He points out repeatedly that the church and the world community are suffering from a crisis of leadership, that bold and honest leaders are needed in the church and in the marketplace, as well as in the home. In my analysis he has called for transformational leaders to rise up and effect change. It is very clear that he is saying that many leaders work within situations. Transformational leaders change what can be talked about, whereas many other leaders talk about pay-offs. Transformational leaders talk about goals. Many leaders bargain, whereas transformational leaders appeal to a common vision. Dr Isaac Ojutalayo argues that desperately needed Christians and transformational leadership will not emerge until we have a model of a transforming leader. I believe that Jesus Christ was and is the most effective leader the world has ever known. It is with unreserved joy that I recommend this publication to those who are interested in church leadership. Professor Clinton L. Ryan, ThD

In this missionary classic, first published in 1970, Donald A. McGavran skillfully combines theological convictions, empirical research, sociological principles, and spiritual insights to mold a paradigm for effective evangelism strategy both at home and abroad. This third edition, revised and edited by C. Peter Wagner, retains the book's original aim and essence while modernizing the language and streamlining the flow of ideas, reducing the book's bulk by 35 percent. Other features of this edition include an additional chapter on divine healing and an expanded, updated, and annotated reading list. --

Church leaders understand that managing the day-to-day operations of a church can be challenging because of limited resources, managing volunteer labor, and supporting the needs of the congregation. *Smart Church Management: A Quality Approach to Church Administration, Third Edition* is an updated guide for managing the resources of a church - which is people, time and money. This book provides tools and examples for decision making and problem-solving for church administration that is easy to understand and more importantly, quick to implement! ideal for ministry students, church boards, church leadership and church administrators. Acclaimed church leader, blogger, founder and chief strategic officer of The Unstuck Group, Tony Morgan unpacks the lifecycle of a typical church, identifies characteristics of each phase, and provides practical next steps a church can take to move towards sustained health. Think about your church for a moment. Is it growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the stagnating last stages of life support. Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ." With eternity at stake the Church should be doing most everything within its power to see lives changed forever. The Church should strive for the pinnacle of the lifecycle, where they are continually making new disciples and experiencing what Morgan refers to as "sustained health." In *The Unstuck Church*, Morgan unpacks each phase of the church lifecycle, and offers specific and strategic next steps the church leader can take to find it's way to sustained health . . . and finally become unstuck. *The Unstuck Church* is a call for honest an assessment of where your church sits on the lifecycle, and a challenge to move beyond it.

Christianity is a surprising religion. It has changed the world in remarkable ways throughout history simply through Christians living out their faith. More recently, we've become afraid of a habituated Christianity, thinking that routines will rob our faith of its vitality. The net effect is that we've replaced the habits that surprise the world with habits that mimic the world—and both we and the world suffer for it. Integrating the five habits in the BELLS model—Bless others, Eat together, Listen to the Spirit, Learn Christ, and understand yourself as Sent by God into others' lives—will help you spread the gospel organically, graciously, and surprisingly. Michael Frost, a world-renowned expert on evangelism and discipleship, makes evangelism a lifestyle that is fulfilling, exciting, effective, and easy to live out!

90% of the churches in the world have less than 200 people. What if that's not a bad thing? What if smallness is an advantage God wants us to use, not a problem to fix? The Church Growth Movement has divided devout Christians. Even though Rainer is an advocate, his aim here is to present an objective view of the movement--its history, the theology associated with it, and the principles which seem to separate churches that grow from those that don't.

If the divine liturgy really is as beautiful as we claim, wouldn't more people attend? Wouldn't the church grow? Driven by our desire for growth, we count, we analyze, we make charts, and we strategize, but often with few discernible results. That is probably the result of focusing on secondary aspects of church life. As we know, the very existence of a church is a gift of God's presence and not the result of any particular actions taken by human beings. For that reason, church is primarily about being something rather than doing or achieving something. So the growth of the church is not reflected in ever-increasing numbers, dollars, and activities, but rather in steadily growing conformity to the divine ideal. So in order to evaluate ecclesial growth, we will first have to ask what the church is supposed to be. One answer to that question is captured in the four marks of the church given in the creed: Oneness, Holiness, Catholicity, and Apostolicity. These four characteristics serve as a matrix or framework

within which we can focus on the primary aspects of ecclesial being and help it grow and become what it was intended to be.

It's no secret that the evangelism methods of yesterday are not yielding the kinds of results they did in the 1970s and 1980s. So how are new Christians hearing the Gospel today? How are they finding churches? And what makes them stay at a church? The answers to these questions have the power to dramatically alter the way we do outreach. And Dr. McIntosh has them. Based on ten years of scientific research, *Growing God's Church* shows pastors and church leaders how people are actually coming to faith in the 21st century. It covers factors such as our motive for ministry, the priorities churches set for themselves, the reality of churchless Christians, generational and gender-based differences in evangelism effectiveness, the name of your church, the influence of pastors, and much more. The appendix includes a copy of the survey that provides the basis for McIntosh's arguments and an overview of the study is provided in the first chapter.
