Spiritual Depression is one of the great classics of the modern Church and tackles the big question: If Christianity is such "good news" why are its followers often unhappy? Dr. Martyn Lloyd-Jones was possibly the greatest Christian preacher and teacher of the twentieth century. A medical doctor by training, Spiritual Depression draws together his professional understanding of the mind with a profound understanding of Christian teaching and the Bible. Spiritual Depression diagnoses the causes of the ill feeling that many Christians experience. It prescribes the practical care that is needed to lift people's spirits and bring them freedom, power and joy. Spiritual health is possible and this book explains how everyone can grasp it for themselves.

This comprehensive reference and text synthesizes a vast body of clinically useful knowledge about women's mental health and health care. Coverage includes women's psychobiology across the life span--sex differences in neurobiology and psychopharmacology and psychiatric aspects of the reproductive cycle--as well as gender-related issues in assessment and treatment of frequently encountered psychiatric disorders. Current findings are presented on sex differences in epidemiology, risk factors, presenting symptoms, treatment options and outcomes, and more. Also addressed are mental health consultation to other medical specialties, developmental and sociocultural considerations in service delivery, and research methodology and health policy concerns.

#1 Wall Street Journal Best Seller USA Today Best Seller Amazon Best Book of the Year TED Talk sensation - over 3 million views! The counterintuitive approach to achieving your true potential, heralded by the Harvard Business Review as a groundbreaking idea of the year. The path to personal and professional fulfillment is rarely straight. Ask anyone who has achieved his or her biggest goals or whose relationships thrive and you'll hear stories of many unexpected detours along the way. What separates those who master these challenges and those who get derailed? The answer is agility—emotional agility. Emotional agility is a revolutionary, science-based approach that allows us to navigate life's twists and turns with self-acceptance, clear-sightedness, and an open mind. Renowned psychologist Susan David developed this concept after studying emotions, happiness, and achievement for more than twenty years. She found that no matter how intelligent or creative people are, or what type of personality they have, it is how they navigate their inner world—their thoughts, feelings, and self-talk—that ultimately determines how successful they will become. The way we respond to these internal experiences drives our actions, careers, relationships, happiness, health—everything that matters in our lives. As humans, we are all prone to common hooks—things like self-doubt, shame, sadness, fear, or anger—that can too easily steer us in the wrong direction. Emotionally agile people are not immune to stresses and setbacks. The key difference is that they know how to adapt, aligning their actions with their values and making small but powerful changes that lead to a lifetime of growth. Emotional agility is not about ignoring difficult emotions and thoughts; it's about holding them loosely, facing them courageously and compassionately, and then moving past them to bring the best of yourself forward.

Drawing on her deep research, decades of international consulting, and her own experience overcoming adversity after losing her father at a young age, David shows how anyone can thrive in an uncertain world by becoming more emotionally agile. To guide us, she shares four key concepts that allow us to acknowledge uncomfortable experiences while simultaneously detaching from them, thereby allowing us to embrace our core values and adjust our actions so they can move us where we truly want to go. Written with authority, wit, and empathy, Emotional Agility serves as a road map for real behavioral change—a new way of acting that will help you reach your full potential, whoever you are and whatever you face.

When your life looks perfect, but you're silently falling apart... If you were raised to believe that painful emotions are a sign of weakness, or if being vulnerable has always made you feel unsafe, then you may have survived by creating a perfect-looking life—a life where you appear to be successful, engaged, and always there for others. The problem? You're filled with self-criticism and shame, and you can't allow yourself to express fear, anger, loss, or grief. You recognize something is wrong, but you're not sure what

exactly—only that you feel trapped and alone. If this sounds like you, you may have perfectly hidden depression (PHD). With this compassionate guide, you'll begin the process of understanding your perfectionism, identifying destructive beliefs, and connecting with emotions suppressed for far too long. You'll also find tangible tips for quieting that critical inner voice, and powerful strategies for coping with difficult feelings. Most importantly, you'll learn that asking for help isn't a sign of weakness, but a sign of strength. If you're ready to stop hiding and start healing, this groundbreaking book will guide you—every imperfect step of the way.

We live in an age when reality TV shows climax in a tearful finale. But feeling sad - genuinely sad - is still taboo. Yet, sadness happens to us all, sometimes in heartbreakingly awful ways. If we don't know how to be sad, it can be isolating for those experiencing it and baffling for those trying to help others through dark times.

Recently, there has been a growing awareness of the multiple interrelationships between depression and various physical diseases. Patients with psychiatric problems, particularly depression, may be more susceptible to cardiovascular disorders. Depression and Heart Disease synthesizes current evidence, including some previously unpublished data, in a concise, easy-to-read format. The authors succinctly describe the epidemiology, pathogenesis (including cytokines and genetics), and risk factors of the comorbidity between depression and heart disease. The book also reviews the best pharmacological and psychotherapeutic approaches for people with this comorbidity.

Habits and attitudes developed in the preschool and kindergarten years affect a child for the rest of his or her life. These years are also a challenging time for parents as children test boundaries (and patience). How parents and children respond makes all the difference in the world. The Growing God's Kids series is designed to help young children understand their feelings, develop godly ways to deal with temptations, and form positive attitudes and behaviors that will serve them well in the future. In *It's Okay to Feel Sad*, parents and children are encouraged to express sadness and to comfort each other in healthy ways.

For everyone who loved *You Are a Badass* and *The Subtle Art of Not Giving a F\*ck* -- a cut-through-the-crap guide to quitting the self-destructive habits that undermine happiness and success *How to Stop Feeling Like Sh\*t* is a straight-shooting approach to self-improvement for women, one that offers no-crap truth-telling about the most common self-destructive behaviors women tend to engage in. From listening to the imposter complex and bitchy inner critic to catastrophizing and people-pleasing, Andrea Owen -- a nationally sought-after life coach -- crystallizes what's behind these invisible, undermining habits. With each chapter, she kicks women's gears out of autopilot and empowers them to create happier, more fulfilling lives. Powerfully on-the-mark, the chapters are short and digestible, nicely bypassing weighty examinations in favor of punch-points of awareness.

James is sad. Way past sad. His best friend, Sanj, is moving away. James feels all alone, and even hugs from Mom don't take away all his sad. But it helps to talk about it. Nothing can change the fact that Sanj is moving, but will James and Sanj always be sad? Or is there a way to get past it?

Showing up is what turns the people you know into your people. It's at the core of creating and maintaining strong, meaningful bonds with friends, family, coworkers, and internet pals. Showing up is the act of bearing witness to people's joy, pain, and true selves; validating their experiences; easing their load; and communicating that they are not alone in this life. If you're having trouble connecting with those around you, know that you're not the only one. Adult friendships are tricky!!! Part manifesto, part guide, *The Art of Showing Up* is soul medicine for our modern, tech-mediated age. Rachel Wilkerson Miller charts a course to kinder, more thoughtful, and more fulfilling relationships—and, crucially, she reminds us that “you can't show up for others if you aren't showing up for yourself first.” Learn to fearlessly . . . define your needs, reclaim your time, and commit to self-care ask for backup when times are tough—and take action when others are in crisis meet and care for new friends, and gently end toxic friendships help your people feel more seen (and more OK) overall!

Follow Chloe's story and find out how she copes with the initial sadness from losing her toy elephant. Each book focuses on a different emotion, looking at why children may feel a certain way and how they can deal with their feelings. Every title features two stories, each told from a child's point of view, which involve common scenarios or situations. For example, the main characters interact with each other through the series, sharing experiences that readers can easily relate too. These sensitive stories reassure young readers and provide them with a vocabulary which helps them to express and understand their feelings as they grow up and encounter different situations. 'Story words' in each book explain words simply and gently. Beautiful, fun illustrations from an award winning illustrator, plus supporting text for parents and teachers ensure children get the most from the books.

A brave mouse, a covetous rat, a wishful serving girl, and a princess named Pea come together in Kate DiCamillo's Newbery Medal-winning tale. Welcome to the story of Despereaux Tilling, a mouse who is in love with music, stories, and a princess named Pea. It is also the story of a rat called Roscuro, who lives in the darkness and covets a world filled with light. And it is the story of Miggery Sow, a slow-witted serving girl who harbors a simple, impossible wish. These three characters are about to embark on a journey that will lead them down into a horrible dungeon, up into a glittering castle, and, ultimately, into each other's lives. What happens then? As Kate DiCamillo would say: Reader, it is your destiny to find out. With black-and-white illustrations and a refreshed cover by Timothy Basil Ering.

Illustrations and simple, rhyming text provide young children with tools for dealing with feelings of sadness, such as talking about what is wrong, crying, or doing something creative.

If you've ever struggled with depression, take heart. Mindfulness, a simple yet powerful way of paying attention to your most difficult emotions and life experiences, can help you break the cycle of chronic unhappiness once and for all. In *The Mindful Way through Depression*, four uniquely qualified experts explain why our usual attempts to “think” our way out of a bad mood or just “snap out of it” lead us deeper into the downward spiral. Through insightful lessons drawn from both Eastern meditative traditions and cognitive therapy, they demonstrate how to sidestep the mental habits that lead to despair, including rumination and self-blame, so you can face life's challenges with greater resilience. This e-book includes an audio program of guided meditations, narrated by Jon Kabat-Zinn, for purchasers to stream or download from the Web. See also the authors' *Mindful Way Workbook*, which provides step-by-step guidance for building your mindfulness practice in 8 weeks. Plus, mental health professionals, see also the authors' bestselling therapy guide: *Mindfulness-Based Cognitive Therapy for Depression, Second Edition*. A girl, a potato, and a very sad flamingo star in this charming sequel to *I'm Bored* by New York Times bestselling author and comedian Michael Ian Black and celebrated illustrator Debbie Ridpath Ohi. Everyone feels sad sometimes—even flamingos. Sigh. When Flamingo announces he's feeling down, the little girl and Potato try to cheer him up, but nothing seems to work. Not even dirt! (Which usually works for Potato.) Flamingo learns that he will not always feel this way. And his friends learn that sometimes being a

friend means you don't have to cheer someone up. You just have to stick by your pal no matter how they feel. Even if they're a potato.

Sometimes I feel sad. Sometimes it's because I've lost something. Or because I'm hurt. Other times I don't know why I feel sad. I just do. Feeling sad is, unfortunately, a part of everyone's life, and there's not always an easy fix. This touching book helps explain to children aged 5-11 that they're not alone in feeling this way, and is especially useful for children who struggle to express their feelings.

Everyone feels angry sometimes, but there are always ways to feel better! Join a bunny rabbit and her family as she learns to manage angry feelings. With a focus on identifying the causes of an emotional reaction, and coming up with ways to start feeling calm and happy again, this book explains simple strategies to help kids understand and take care of their emotions.

In a world where we usually measure animals by human standards, prize-winning author and MacArthur Fellow Carl Safina takes us inside their lives and minds, witnessing their profound capacity for perception, thought and emotion, showing why the word "it" is often inappropriate as we discover who they really are. Weaving decades of observations of actual families of free-living creatures with new discoveries about brain functioning, Carl Safina's narrative breaches many commonly held boundaries between humans and other animals. In *Beyond Words*, readers travel the wilds of Africa to visit some of the last great elephant gatherings, then follow wolves of Yellowstone National Park sort out the aftermath of their personal tragedy, then plunge into the astonishingly peaceful society of killer whales living in waters of the Pacific Northwest. We spend quality time, too, with dogs and falcons and ravens; and consider how the human mind originated. In his wise and passionate new book, Safina delivers a graceful examination of how animals truly think and feel, which calls to question what really does—and what should—make us human.

Feeling sad is a natural part of life. This colorful ebook guides young children through sadness with the help of cute illustrated characters. *I Feel Sad* helps young children understand sadness, describing possible reasons why they might get sad, the different ways sadness looks from the outside, and what to do if you want to stop feeling sad.

Adults and children can read along as they follow the story of a little rain cloud who feels down in the dumps and finds ways to cheer themselves up again. Questions such as "Think of some things to say to yourself that make you feel happy" turn the ebook into a fun, interactive experience. Fun cartoon characters and simple text make *I Feel Sad* a perfect first ebook for every young child to enjoy.

Young children often experience anxiety when they are separated from their mothers or fathers. A young guinea pig expresses her distress when her mother and father go away. "Missing you is a heavy, achy feeling. I don't like missing you. I want you right now!" Eventually the little guinea pig realizes that sometimes she and her parents can't be together. When that happens, she knows that others can help. "They can snuggle with me or we can play. It helps me to be warm and close to someone. They remind me that you'll be back."

The mental well-being of children and adults is shockingly poor. Marc Brackett, author of *Permission to Feel*, knows why. And he knows what we can do. "We have a crisis on our hands, and its victims are our children." Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults – a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. The core of his approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone, he wasn't stuck on a timeline, and he wasn't "wrong" to feel scared, isolated, and angry.

Now, best of all, he could do something about it. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around the world. It is tested, and it works. This book combines rigor, science, passion and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.

A bear cub describes situations that make her jealous: when someone has something she wants, when someone is good at something she wants to be good at, and when someone else gets all the attention. "Jealousy is a prickly, hot, horrible feeling. I don't like feeling jealous, but—everybody feels jealous sometimes." The little bear finds ways to make herself feel better—she talks to someone about how she feels and then does something pleasant—and soon the jealous feeling goes away. An author's note for parents and teachers is included.

Eat for your mental health and learn the fascinating science behind nutrition with this "must-read" guide from an expert psychiatrist (Amy Myers, MD). Did you know that blueberries can help you cope with the aftereffects of trauma? That salami can cause depression, or that boosting Vitamin D intake can help treat anxiety? When it comes to diet, most people's concerns involve weight loss, fitness, cardiac health, and longevity. But what we eat affects more than our bodies; it also affects our brains. And recent studies have shown that diet can have a profound impact on mental health conditions ranging from ADHD to depression, anxiety, sleep disorders, OCD, dementia and beyond. A triple

threat in the food space, Dr. Uma Naidoo is a board-certified psychiatrist, nutrition specialist, and professionally trained chef. In *This Is Your Brain on Food*, she draws on cutting-edge research to explain the many ways in which food contributes to our mental health, and shows how a sound diet can help treat and prevent a wide range of psychological and cognitive health issues. Packed with fascinating science, actionable nutritional recommendations, and delicious, brain-healthy recipes, *This Is Your Brain on Food* is the go-to guide to optimizing your mental health with food.

**INSTANT NEW YORK TIMES BESTSELLER** The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential. “This method is very simple, very accessible, and endorsed by science. Anybody can do it, and there is no dogma, only acceptance. Only freedom.” —Wim Hof  
Wim Hof has a message for each of us: “You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in any stressful situation.” With *The Wim Hof Method*, this trailblazer of human potential shares a method that anyone can use—young or old, sick or healthy—to supercharge their capacity for strength, vitality, and happiness. Wim has become known as “The Iceman” for his astounding physical feats, such as spending hours in freezing water and running barefoot marathons over deserts and ice fields. Yet his most remarkable achievement is not any record-breaking performance—it is the creation of a method that thousands of people have used to transform their lives. In his gripping and passionate style, Wim shares his method and his story, including:

- **Breath**—Wim’s unique practices to change your body chemistry, infuse yourself with energy, and focus your mind
- **Cold**—Safe, controlled, shock-free practices for using cold exposure to enhance your cardiovascular system and awaken your body’s untapped strength
- **Mindset**—Build your willpower, inner clarity, sensory awareness, and innate joyfulness in the miracle of living

- **Wim’s Story**—Follow Wim’s inspiring personal journey of discovery, tragedy, and triumph
- **Spiritual Awakening**—How breath, cold, and mindset can reveal the beauty of your soul

Wim Hof is a man on a mission: to transform the way we live by reminding us of our true power and purpose. “This is how we will change the world, one soul at a time,” Wim says. “We alter the collective consciousness by awakening to our own boundless potential. We are limited only by the depth of our imagination and the strength of our conviction.” If you’re ready to explore and exceed the limits of your own potential, *The Wim Hof Method* is waiting for you.

A sensitive and supportive story to help young children recognize and cope with sadness. “Now when I get sad, I still cry sometimes. I still hide sometimes. But only for a little while. Because now I know ways to feel better.” Sadness can be an overwhelming emotion, especially for young children. But it’s important to know when sadness can be overcome, and when it’s indicative of a greater problem. Sometimes *When I’m Sad* is an invaluable self-help resource that helps children identify sadness or depression and offers helpful ways to manage it, such as: Talk about it with a parent or a trusted adult or counselor Draw the sadness with crayons Release tension by squishing clay Run and jump around outside Observe nature The word depression is never used in the gentle, child-focused text, but this simple story offers an entrance point for both adults and children to identify and address childhood depression symptoms early. This timely resource is a wonderfully gentle way to take steps toward banishing the stigma around mental illness. A special section at the back of the book provides support for adults, from an explanation of the difference between sadness and depression to helpful tools to manage the illness. Especially useful for counselors, social workers, teachers, parents, and any other adults caring for children who struggle with dark feelings.

Have you ever been sad? We can be sad for many reasons. Maybe it's raining and you want to play outside. Maybe a friend moved away, or you're sick on your birthday. Everyone feels sadness in different ways. You might feel like crying all the time, or you may be constantly cold or hungry. You might even feel sick to your stomach or angry. There's no right or wrong way to be sad. One event that makes us all sad, regardless of how old we are or where we live, is losing a loved one. When someone we love dies, some people want to be alone, while others need company. Some people may want to hide under covers and do nothing all day, while others want to keep busy. Just like being sad, there's no right or wrong way to mourn. In Dagmar Geisler's *What to Do When I Am Sad*, readers will learn to recognize why they're sad and how that sadness is making them feel otherwise. They will also learn that it's okay to express that sadness through tears, controlled anger, creativity, or conversation. *What to Do When I Am Sad* gives parents, grandparents, and caregivers the opportunity to speak with children about sadness, depression, and grief.
